EXPO2025 Theme Weeks Programme Guidebook

November 2025 Edition

Designing Future Society for Our Lives

A commitment to the world for opportunities to achieve the Sustainable Development Goals (SDGs) and cocreate for the future

In the Bid Dossier submitted as a candidate to host Expo 2025 and the Registration Dossier submitted on formal registration of the Expo, the Japanese government promised to the world that Expo 2025 Osaka, Kansai, Japan would provide opportunities to achieve the Sustainable Development Goals (SDGs) and co-create for the future. Theme Weeks are intended to fulfil this promise.

Significance

Bringing the wisdom of the world together for solutions to shared challenges

In its 1994 General Meeting, the Bureau International des Expositions (BIE) resolved that Expos should serve as venues for solutions to humanity's shared challenges.

The Dubai Expo in 2021, delayed one year by the COVID-19 pandemic, was held at a time when various restrictions on people's movements remained in place around the world. Despite this unprecedented challenge, the Dubai Expo proved a great success and featured numerous examples of efforts toward solutions reflecting the 1994 BIE General Meeting's resolution. Among these, it was the first Expo ever to adopt Theme Weeks, which can be described as symbolic of the Expo's meaning in a new age.

Considering building further on this inherited legacy of the Dubai Expo to be an important role, Expo 2025 Osaka, Kansai, Japan will continue the Theme Weeks programme.

World Expos have been held continually for more than 170 years since the first, in 1851 in London. While the world has experienced numerous dramatic changes over this period, the Expo too has evolved with the times. Nevertheless, the Expo's universal value of bringing the world together in one place for half a year remains unchanged. Human civilization has grown to the extent that it threatens the environment of the planet, and humanity remains unable to find a way out of division and conflict. As such, the Expo, as a place that brings the whole world together, can be said to be growing even more important. The Theme Weeks programme is an effort to draw this meaning of the Expo into even stronger relief, as a platform for generating the vitality needed to move the world toward a better future.

Expo 2025 Osaka, Kansai, Japan's Theme Weeks look at issues shared by all humanity, through eight sub-themes of the Expo. Each of these eight themes poses questions to encourage dialogue among the countries, regions, international agencies, companies, citizens' groups, and other Expo participants from around the world, in which each can express its own views and listen to those of others to generate shared understandings. They also serve as platforms for interaction among people taking practical action through business.

Theme Weeks will serve to bring the world's wisdom together for solutions to shared challenges.

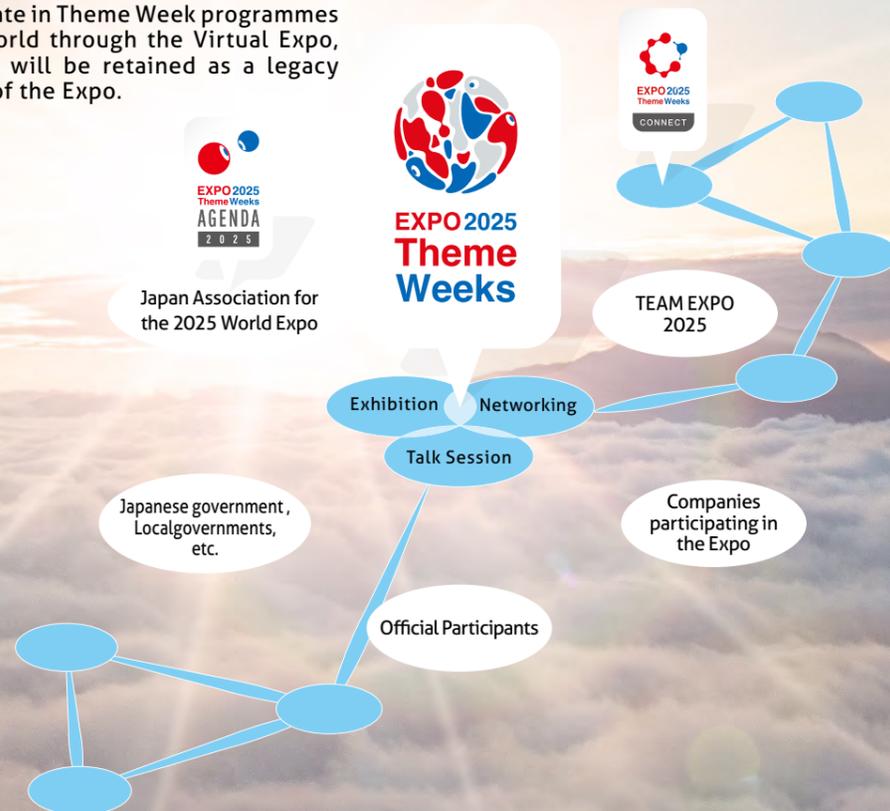

Joining with the world to build a bright future full of life

Aiming to build a bright future full of life together with the world, the Theme Weeks programme will be implemented through cooperation between the countries and regions from around the world participating in the Expo and regions of the host country Japan.

For this reason, the programme consist of programmes conducted on the Expo venue, categories into five tracks by Expo participants, and Theme Week Connect for connecting with the regions of Japan. The programme on the Expo venue also will implement Agenda 2025, planned and implemented by the organizers of Expo 2025 Osaka, Kansai, Japan themselves.

Each programme will be conducted in one of the following forms: discussion programmes for exchange of opinions among experts from around the world, on stage or in other forms; receptions and other business exchange programmes for business matching and other purposes; and exhibition programmes including activities such as exhibits and presentations in exhibition halls and similar venues.

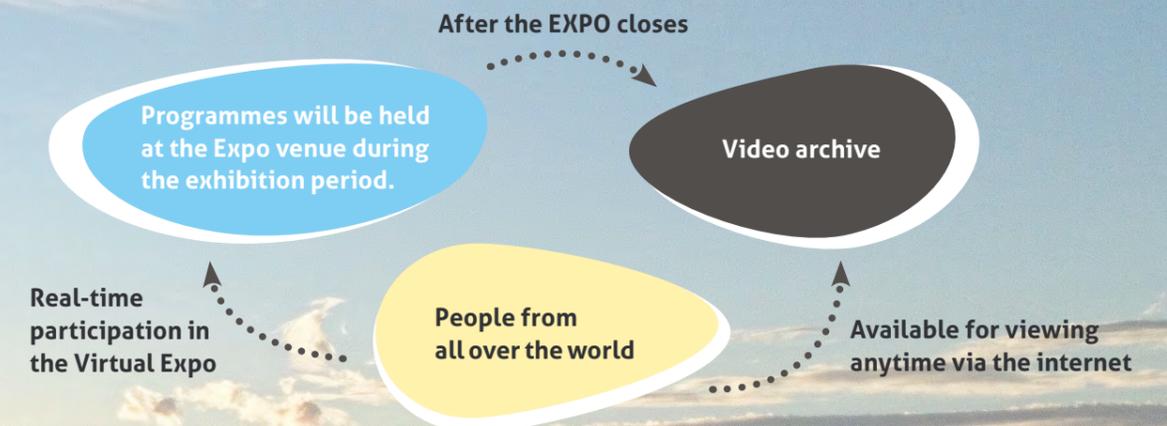

People can participate in Theme Week programmes from around the world through the Virtual Expo, and video archives will be retained as a legacy even after the end of the Expo.

Venue and host organisation

	Track1	Track2	Track3	Track4	Track5
Host organisation	Official participants	Government of Japan Local governments, etc.	Japan Association for the 2025 World Exposition	TEAM EXPO 2025	Companies participating in the Expo
Venue	Official Pavilions	Japanese government pavilion, Osaka Pavilion, EXPO Exhibition Centre, etc.	Theme Weeks Studio, EXPO Exhibition Centre, Signature Pavilion	TEAM EXPO Pavilion	private sector pavilion, Future Society Showcase

Virtual Expo and Legacy

Eight themes

The themes of Theme Weeks represent humanity's shared challenges, as identified in the SDGs and elsewhere, organized into eight domains based on the themes and sub-themes of Expo 2025 Osaka, Kansai, Japan. The aim is to devise courses of action through all programmes conducted during Theme Weeks, to address the questions posed by each theme.

Apr 25 – May 06

Co-creating Cultures for the Future Week

What do we need to do for diverse cultures to resonate and co-create cultures for the future?

Traditional performing art, historical heritage, local community revitalisation, tourism, art, music, sports, cultural arts, Cool Japan, manga and anime, Esports, etc.

May 15 – May 26

The Future of Community and Mobility Week

What is a community where we can live as we are?

Smart cities, digital garden cities, disaster prevention and reconstruction, metaverse, space, robots, EV/FCV, automatic operation, flying cars, cyber security, MaaS etc.

Jun 05 – Jun 16

Necessities of Life: Food, Clothing and Shelter Week

What do we need to do to realize a future where everyone has access to food, clothing and shelter?

Food loss, food tech, food education, food culture, smart agriculture, forestry and fisheries industry, sustainable fashion, ethical consumption, etc.

Jun 20 – Jul 01

Health and Well-being Week

How do we realize a society where the well-being of each person resonates?

Measures against infectious diseases, well-being, genomic medicine, regenerative medicine, cell therapy and gene therapy, PHR, healthy life expectancy, SBNR, safe water and toilets, etc.

Jul 17 – Jul 28

Learning and Playing Week

What should humans learn in the era of AI?

Lifelong learning, EDTEC, intellectual property utilisation, individually optimised learning, remote education, youth independence, educational inequality, STEAM, entrepreneurship, games around the world, etc.

Aug 01 – Aug 12

Peace, Human Security and Dignity Week

What do we do to realize a world where discrimination is eliminated and people respect each other?

Hunger, poverty, social inequality, human rights violations, child labor and forced labor, human trafficking, participation of persons with disabilities, gender equality, LGBTQ, promotion of women's participation and advancement in the workplace, immigration, human security, diversity and inclusion etc.

Sep 17 – Sep 28

The Future of Earth and Biodiversity Week

What do we need to do to preserve the earth for future generations with abundant and diverse life?

Climate change, decarbonisation, biodiversity, circular economy, renewable energy, hydrogen society, Nature Positive, deforestation, marine pollution, woodland regeneration, freshwater resources, etc.

Oct 02 – Oct 12

SDGs+Beyond Future Society for Life Week

Can we achieve the SDGs? What do we do beyond the goals?

SDGs, post-SDGs, life, future society, Society 5.0, etc.

Cross-cutting initiatives

Three cross-cutting initiatives have been established based on the concepts of Expo 2025 Osaka, Kansai, Japan, as intersections among the eight themes.

The Economy and Innovation

From the perspectives of economics and technology, this refers to addressing global issues while considering economic benefits and utilizing advanced technologies.

The Population Trends, Depopulation, and Aging

From a social perspective focused on demographic changes, this refers to issues such as rapid population growth, declining birth rates, aging populations, and the resulting population decline.

The Next Generation, Inclusion

From the perspective of a new era's values that emphasize human rights, diversity, and individual well-being, this refers to the participation of the next generation and people from diverse backgrounds in efforts to solve societal challenges.

AGENDA 2025

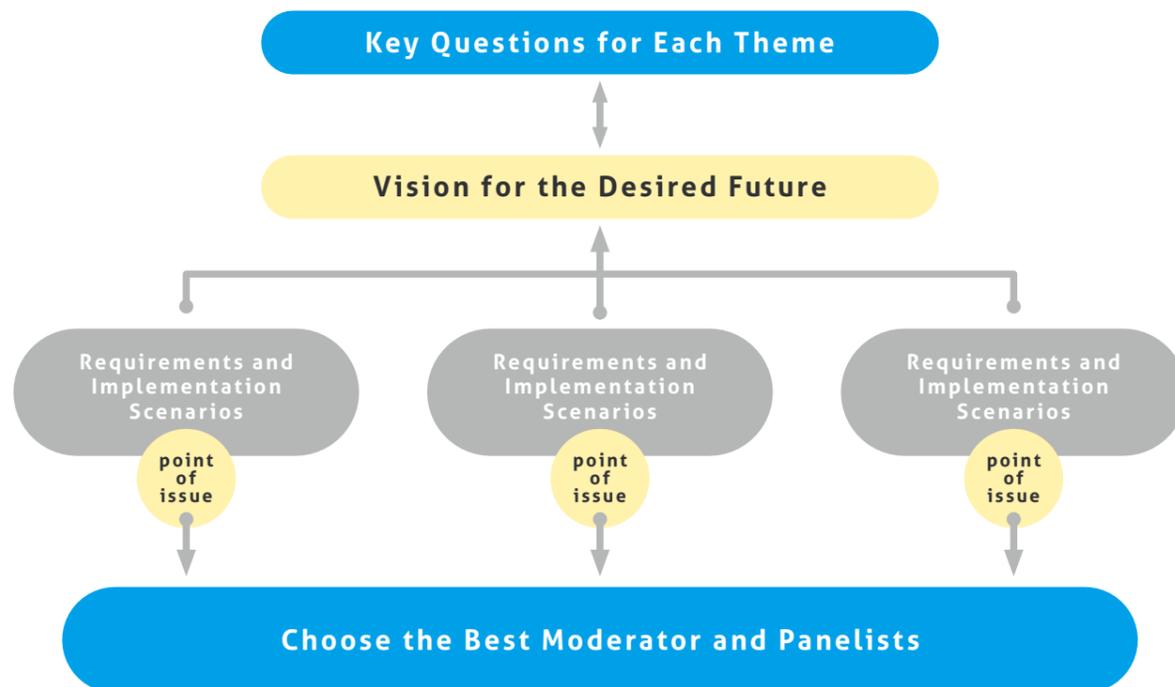

Agenda 2025 is a series of programmes organized by the Expo Association on the eight themes of Theme Weeks. Its programmes are in three categories: organized programmes planned and implemented by the Expo Association and overall sponsors; co-created programmes conducted jointly by outside organizations that support the aims of Theme Weeks and the Expo Association; and participation programmes in which companies and other organizations support and participate on themes that they choose individually.

Organized programmes will posit desirable visions for the future and develop scenarios for realizing them, in response to the questions posed by each Theme. The points of discussion programmes will be based on these scenarios, and optimal moderators and speakers will be selected to realize high-quality discussion sessions.

Structure of the Programme

Co-creating Cultures for the Future Week

2025.04.25 Venue Open 10:00 Starting time 11:00 Closing time 13:40	Selecting Italy	Italy Pavilion Selecting Italy has been, since 2022, a platform for an annual comparison between institutions, businesses and stakeholders aimed at the elaboration of concrete proposals to enhance the attractiveness of the country system on foreign markets. Enhancing Selecting Italy in the context of Expo Osaka 2025 means actively working to consolidate relations between the two countries and between their reciprocal levels of government in terms of economic, industrial and technological cooperation. Selecting Italy reaffirms the central role of the territories in the process of defining cooperation, innovation and sustainability strategies and strongly emphasises the value of people and communities as the primary vectors of economic development. The goal of the Japanese edition of Selecting Italy is to continue enhancing relationships for the development of investments between Italy and Japan, promoting partnerships between regions with aligned specialties.	Italian Republic
2025.04.25 Venue Open 10:00 Starting time 10:30 Closing time 12:00	The Power of JICA volunteers- Change the World, Change Japan-The First session : Promoting Regional Internationalization	Theme Weeks Studio Over the past 60 years, more than 56,000 Japanese have been dispatched to 99 developing countries to work as Japan Overseas Cooperation Volunteer(JICA Volunteers) for two years. After returning to Japan, many EX-volunteers contribute to solving social and global issues in Japan. Today we have two sessions with EX-volunteers, experts and local governments to explore what can do to revitalize local communities and realize a multicultural and inclusive society.	Japan International Cooperation Agency
2025.04.25 Venue Open 10:15 Starting time 10:30 Closing time 12:30	Connecting the World through music and dance - From Past to Future -	Playground of Lives: Jellyfish Pavilion Through initiatives such as the Cabinet Secretariat's Expo International Exchange Program, the thematic project "Invigorating Lives" fosters cultural exchange with various countries and regions, serving as a bridge between Japan and the world. The future of our planet will emerge through collaboration, and we believe that the harmonious blending of traditional cultural expressions—such as music and dance—transcending language barriers will play a significant role in this endeavor. As part of the Cultural Co-Creation Week for the Future, this workshop will feature a live performance connecting the world in collaboration with the Jellyfish Band, taking place shortly after the Expo period concludes in April.	EXPO 2025 Thematic Project "Invigorating Lives" (Producer NAKAJIMA Sachiko)

2025.04.27 Venue Open 13:30 Starting time 14:00 Closing time 15:20	Playing for the Planet: The Role of Sports in Driving Sustainability	Theme Weeks Studio Sport has a unique power to inspire and unite people across cultures and communities. As the world faces pressing environmental and social challenges, the sports industry plays a vital role in advancing the Sustainable Development Goals (SDGs). "Football for the Goals", a United Nations initiative launched in July 2022, provides a platform for the global football community to engage with and advocate for the SDGs, human rights, equality and climate action. At this event, held in collaboration with the Union of European Football Associations (UEFA), an inaugural member of Football for the Goals and "HEROs PLEDGE," an initiative addressing climate change and marine plastic pollution through athletes, we will bring together key figures from sport organizations, private companies, and athletes at the forefront of the sports industry to discuss the role of sports in driving sustainability and positive change in society. The panelists will explore the intersection of sports and sustainability and discuss how the sports sector can lead the way in building a more sustainable future. *Football for the Goals is a UN initiative that provides a platform for the global football community to engage with and advocate for the SDGs. It brings together all levels of the sport — from confederations, national associations, leagues, and clubs, to players' associations and fan organizations — to build on existing sustainability approaches and to implement SDG strategies that lead to behavioural change.	United Nations
2025.04.27 Venue Open 16:30 Starting time 17:00 Closing time 19:20	Women x Health x Career Part2 Envisioning the Future of Work: With Well-Being by Sakuya Working Community	Women's Pavilion WA Space Women x Health x Career In Part 2, a "talk session" will be held on the theme of creating the society and companies where women can be active in their own way regardless of their gender. With a view to contributing to the revitalization of society and local communities, discussions will focus on the awareness of women themselves, aiming to gain insights that will enable each and every one of them to work in their own way and with vitality.	Sakuya Working Community
2025.04.28 Venue Open 14:30 Starting time 15:00 Closing time 16:00	In-between Life and IT	Theme Weeks Studio A discussion on "Life" featuring FUKUOKA Shinichi, a biologist and the producer of the thematic project "Quest of Life" for Expo 2025 Osaka, Kansai, Japan, and SAWADA Jun, Chairman of NTT. This conversation will explore the philosophy of bridging life and IT—two seemingly opposing concepts—and consider the new culture that will emerge at the Expo.	EXPO 2025 Thematic Project "Quest of Life" (Producer FUKUOKA Shin-ichi)

United Nations

Date	Title	Venue / Description	Organizer
2025.04.29 Venue Open 10:00 Starting time 10:00 Closing time 18:00	Wales Day and the Wellbeing of Future Generations Act	UK Pavilion The day will showcase the best of Wales through culture, creative industry highlights, and food and drink experiences. By challenging stereotypes and promoting Wales as a creative, innovative, and high-tech nation.	United Kingdom of Great Britain and Northern Ireland
2025.04.29 Venue Open 10:00 Starting time 10:30 Closing time 12:30	Agenda2025 co-created Programme The Future of Narrative and Embodiment: Innovation Creating Traditional Culture	Theme Weeks Studio [Hypothesis of the Future in 2050] A future where innovations that extend the human body transform our narratives into traditional culture. Throughout history, we have created traditional culture through the act of preserving memories as stories. Starting from this idea, we will explore "new forms of traditional culture" generated by cutting-edge technologies and contemporary art. In particular, we will focus on "embodiment" and "innovation" through a panel discussion to consider the future of cultural co-creation toward 2050.	Shape New World Initiative
2025.04.29 Venue Open 13:30 Starting time 14:00 Closing time 16:00	Agenda2025 co-created Programme The Power of Design to Create New Traditions: Shaping the Future of Lifestyles	Theme Weeks Studio [Hypothesis for the Future in 2050] A future where everyone can freely design their own lives and cultures. Our lifestyles encompass a wide range—from fashion to UX design. While they are rooted in traditions based on ergonomics and history, they are constantly evolving in response to social changes and technological advancements. In this program, we will explore the future of lifestyles in collaboration with leading young creators.	Shape New World Initiative
2025.04.29 Venue Open 17:30 Starting time 18:00 Closing time 20:30	Agenda2025 co-created Programme Viewing the Present State of Culture from the Perspective of 2050 – How to Sustain Culture as a Shared Asset of Humanity	Theme Weeks Studio [Hypothesis of the Future in 2050] Culture is nurtured over a long period, yet, like the natural environment, it can be lost in an instant, often irreversibly. In the past few decades, growing awareness of environmental issues has served as a positive precedent. Similarly, culture must be viewed not merely as an isolated survival issue but as a shared asset of humanity. We must make conscious choices now to preserve it for future generations.	Shape New World Initiative
2025.04.30 Venue Open 09:30 Starting time 10:00 Closing time 12:30	Algeria, land of beginnings	Algeria Pavilion From Ain Boucherit, Algeria reveals a story that dates back 2.4 million years. Stone carvings and primitive tools discovered across the region stand as an evidence of early human presence. These findings not only mark Algeria as one of the earliest cradles of humanity, but also as a land of beginnings.	People's Democratic Republic of Algeria
2025.04.30 - 05.03 Starting time 10:00 Closing time 20:00	Tokushima Cafe Connections: Steeped in Tradition, Past and Present Interwoven	EXPO Exhibition Centre Tokushima Prefecture presents the "Cultural Experience Café", showcasing "Awa Culture" (the rich cultural heritage of Tokushima, formerly known as Awa Province), shaped by the region's deep traditions. From Awa Ningyo Joruri (traditional puppet theater) to woodworking crafts, traditional industries, local cuisine, and unique regional initiatives, this space highlights the diverse cultural offerings of Tokushima. Relax in an atmosphere filled with Tokushima's charm and immerse yourself in the comforting essence of Tokushima.	Tokushima Prefecture

2025.05.20 -05.21 Venue Open 09:30 Starting time 10:00 Closing time 15:00	Pillars of Arish: Architecture in Transition	UAE Pavilion Immerse yourself in an exploration of architectural knowledge where visionary design meets cultural heritage and sustainable innovation. Brought to you by the Dubai Culture & Arts Authority (DCAA) and organised by UAE-based collectives SWALIF and MABNAI. This programme is a two-day symposium unfolding at the UAE Pavilion at Expo 2025 Osaka, exploring the evolving intersections of architecture, cultural identity, and material innovation across the UAE and Japan. Through keynote lectures and panel discussions, the program reflects on how traditional knowledge, embodied in the arish, the falaj, and vernacular landscapes, continues to shape contemporary architectural practices. From examining Japanese architectural influence on Gulf aesthetics to uncovering site-sensitive design approaches and the challenges of preserving historical districts, the sessions interrogate architecture not only as built form but as a cultural and ecological agent. With a focus on education, design enterprise, and pioneering pavilion-making, the symposium invites architects, educators, and urbanists to reflect on the shared urgencies of sustainable and contextually grounded development.	United Arab Emirates

2025.05.24 Venue Open 10:00 Starting time 10:30 Closing time 12:30	Agenda2025 Co-created Programme Achieving a Inclusive Society driven by Smart Mobility	Theme Weeks Studio [The Vision for 2050] A smart mobility society for a decarbonized society envisions a world where people's mobility and lifestyles are supported while minimizing environmental impact, enabling diverse and affluent lifestyles. Autonomous driving, electrification, and mobility systems linked to urban data will realize "human-centered mobility" that fosters not only efficiency but also connection and creativity among residents. A way of mobility that is in tune with individual lifestyles and in harmony with local individuality and culture will form a society that seamlessly links urban and rural areas. Aiming for such a future, mobility will evolve from being merely a means of transportation to a platform that brings out the richness of society and humanity.	Shape New World Initiative
2025.05.24 Venue Open 13:30 Starting time 14:00 Closing time 16:00	Agenda2025 Co-created Programme Where will we live and with whom will we talk?:2050 scene	Theme Weeks Studio [Hypothesis of the Future in 2050] A future where people can more flexibly select and fly around places to live. With the advancement of technologies and the transformation of society, the meaning of mobility and place has changed and diversified. What kind of world will expand in the future, and what kind of desires will we realize? The panelists, who have experimented with various lifestyles, will discuss scenes that can be envisioned in the near future, 2050, interweaving the perspectives of practitioners and people who live on.	Shape New World Initiative
2025.05.24 Venue Open 17:30 Starting time 18:00 Closing time 20:00	Agenda2025 Co-created Programme Blueprint for Future Cities 2050: Designing Future Society for Our Lives	Theme Weeks Studio [The Vision for 2050] A world where urban data supports our lives and fosters diverse and creative human activities. In a future where data utilization continues to advance, how can we harness human creativity and diversity? Moreover, how can we achieve a balance between efficiency and the harmonious integration of data and human values? This session will explore the potential of data in city-making while envisioning the cities of the future.	Shape New World Initiative
2025.05.25 Venue Open 09:30 Starting time 10:00 Closing time 12:30	Retail Digitalisation Initiative (ReDI): Driving Cashless Adoption and Technology in Rural Malaysia	Theme Weeks Studio The Retail Digitalisation Initiative (ReDI) is an initiative by Ministry of Domestic Trade and Cost of Living, Malaysia aims to encourage the use of cashless payments among small retailers in rural Malaysia. As part of the Twelfth Malaysia Plan (2021-2025), the goal is to have at least 15,000 merchants adopt cashless platforms by 2025. To bridge the digital gap between rural and urban areas, ReDI collaborates with various agencies and service providers to create advocacy programmes and facilitate e-wallet adoption. The initiative empowers rural communities to integrate technology into their daily business activities while addressing Malaysia's diverse cultural needs. Key efforts include ReDI tours, advocacy events, public onboarding challenges, and e-wallet incentives, which have successfully raised awareness and adoption of cashless payments in rural areas.	Malaysia

Office for Promotion of New Generation Mobile Communications Systems, Mobile Communications Division, Radio Department, Telecommunications Bureau, Ministry of Internal Affairs and Communications
2025.05.26 Venue Open 13:30 Starting time 14:00 Closing time 16:30	"RESILIENT SETTLEMENT: PREVENTION AND RECONSTRUCTION LESSONS LEARNED FROM JAPAN AND CROATIA" (panell discussion)	Theme Weeks Studio The resilience of settlements to natural disasters is key to reducing long-term damage and ensuring faster recovery. This workshop explores strategies and approaches to disaster prevention and reconstruction through the lens of Japan and Croatia, two countries that have faced significant challenges and developed innovative solutions in response to various natural hazards. Japan, often hit by earthquakes, tsunamis and typhoons, has become a global leader in disaster preparedness and recovery. Croatia, located in a seismically active zone and with a history of devastating floods, offers valuable insight into reconstruction efforts after natural disasters. The special focus of the workshop will be on cultural heritage and UNESCO's guidelines for sites on the World Heritage List. By examining the experiences of both countries, the event aims to identify key lessons that can be applied globally to build more resilient communities, where the development and implementation of new solutions are supported by smart systems of publicly available data.	Republic of Croatia
2025.05.26 Venue Open 17:30 Starting time 18:00 Closing time 19:30	Digital Transformation in 5G/6G era – Key to a Resilient and Sustainable Future	Theme Weeks Studio Next-generation connectivity will play a pivotal role in driving the economic growth through digitalization and sustainability. As the digital transformation around the globe accelerates, cooperation across borders is crucial to unlock the full potential of 6G technologies. Join us for a discussion to drive innovation that benefits societies around the world.	Republic of Finland
2025.8.14 - 8.20 Starting time 10:00 Closing time 20:00 *08.14 Starting time 13:00 *08.20 Closing time 18:00	entangle moment - [quantum earth universe] × art	EXPO Exhibition Centre We are pleased to present an exhibition titled "entangle moment" where you can experience the worlds of Quantum, Earth, and Universe through the fusion of art and science. Republic of Indonesia
2025.06.13 Venue Open 18:00 Starting time 18:30 Closing time 20:30	Let's BEE sustainable! - Innovations and Sustainability in Hungarian Beekeeping	Theme Weeks Studio Hungary is one of the leading beekeeping nations in the European Union, with centuries-old traditions and a uniquely high density of bee colonies — approximately 13 per square kilometer. Home to nearly 1.2 million bee colonies and over 20,000 beekeepers, Hungary's ecological conditions are ideal for beekeeping across most of the country. Each year, Hungary produces between 25,000 and 30,000 tons of honey, 60% of which is exported. Among its products, Hungarian acacia honey stands out as a true rarity, recognized as a Hungarikum, while the country's multifloral and varietal honeys are also of outstanding quality. This event will spotlight how Hungarian beekeepers are adapting to the challenges of a changing world to ensure the long-term sustainability of the sector. Topics will include adaptation to shifting floral resources, technological innovation in beekeeping, and the importance of continuous professional education. New Hungarian innovations in apicultural tools will also be presented — solutions with potential interest for the international beekeeping community.	Hungary
2025.06.14 Venue Open 10:00 Starting time 10:30 Closing time 12:30	Agenda2025 Co-created Programme Regenerative Society Through Slow Food and Innovation: The Future Connected by Food Culture, Living, and Technology	Theme Weeks Studio How do food, agriculture, and our daily lives impact the planet and society? In this session, we will explore the idea of a circular society—one that improves the environment—by rethinking past and present production and consumption through the lenses of grassroots movements and innovation. Together, we will consider concrete action plans for creating a more sustainable future by bridging local efforts and technological advances.	Shape New World Initiative
2025.06.14 Venue Open 13:30 Starting time 14:00 Closing time 16:00	Agenda2025 Co-created Programme What will you eat tomorrow? -To know the "food" of the past is to change the "food" of the future.	Theme Weeks Studio 【Hypothesis of the future vision in 2050】 We value the food culture that has been nurtured, but we also see it as a culture that changes with the "now" and look forward to a future in which each of us can pass on the wisdom and ingenuity of "food" in our own way. In this programme, we have prepared three sessions to discuss ways to look ahead to the future of "food" through knowledge of "food" in the past: first, ways to connect food culture to the future; second, efforts to connect the wisdom of "food" in the past to the future; and third, exploring ways to pass on "food" technology to the future. The third is to find ways to pass on the technology of "food" to the future.	Shape New World Initiative
2025.06.14 Venue Open 17:00 Starting time 17:30 Closing time 19:30	Agenda2025 Co-created Programme Is It Possible to Balance Culture and Business? — Exploring the Future of Communities, Food, and Lifestyles	Theme Weeks Studio What does the future of our communities, food, and lifestyles look like in 2050? Will efficiency lead to a loss of local identity and commodification? This talk gathers experts to discuss how we can balance culture and business, exploring the future we truly desire.	Shape New World Initiative

University of Tsukuba
2025.08.03 Venue Open 13:30 Starting time 14:00 Closing time 16:30	Sabae, The Glasses City Where Women Shine: Women's Empowerment for a Better World	Women's Pavilion WA Space A three-part panel discussion. Panelists include the mayor of Sabae City, women who are active in Sabae, a city of manufacturing, the JK Division of Sabae City Hall, Friends of the United Nations, with which the municipality collaborates, and people who are leading the way in promoting SDGs from an international perspective. Starting with the history of women's success in the local industry, we will discuss current efforts and future developments to communicate to the world the importance of realizing gender equality, a key element in regional revitalization.	Sabae City (Fukui Prefecture)
2025.08.03 Venue Open 14:00 Starting time 14:15 Closing time 16:30	Business Idea Contest aiming to solve issues of forced displaced persons	Theme Weeks Studio The number of refugees and forced displaced persons worldwide has reached 120 million, the largest number to date, with a majority forced to live in neighboring developing countries in situations of uncertainty and poverty. While the burden of host countries continues to rise, humanitarian assistance alone is no longer enough. At this juncture, it is time to tackle the challenges faced by forcibly displaced persons and host communities through exploring innovative and sustainable solutions which harness the potential of the private sector and business world. In this event, we are seeking innovative ideas to address various issues concerning refugees and forced displaced persons through a business idea contest, which will then be shared with the world.	Japan International Cooperation Agency
2025.08.04 Venue Open 10:00 Starting time 10:25 Closing time 14:45	DE&I Forum	Theme Weeks Studio At the DE&I (Diversity, Equity and Inclusion) Forum, held in conjunction with the Expo's Peace and Human Rights Week, we will promote diversity, equity, and inclusion. Our goal is to share initiatives for corporate management and social implementation that aim to create a society where everyone can shine vibrantly. Specifically, we will discuss important issues under the DE&I context, such as gender equality and disability inclusion. We call for accelerated actions at the management level to address the gender gap and promote the inclusion of people with disabilities	NIKKEI

2025.08.04 Venue Open 11:30 Starting time 12:00 Closing time 14:00	An Invitation to Gendered Innovations	Women's Pavilion WA Space Ochanomizu University, home to Japan's first Institute for Gendered Innovations (IGI), will host an event to explore the concept of Gendered Innovations. The event will include a lecture featuring case studies and both domestic and international trends in Gendered Innovations, a panel discussion with researchers, presentations by Ochanomizu University students, and an introduction to the Intersectional Design Cards. Participants will have the opportunity to learn and reflect on how research and technology development through the lens of Gendered Innovations can contribute to building a society where everyone is valued and respected.	Ochanomizu University
2025.08.04 Venue Open 16:15 Starting time 16:30 Closing time 18:00	Panel: Gender, Dignity & Social Inclusion	Belgian Pavilion The panel on Gender, Dignity, and Social Inclusion explores the vital connection between human dignity, equality, and societal inclusion. Through their extensive experience in academia, policy, and advocacy, the speakers examine persistent forms of bias and exclusion based on gender, sexuality, and social identity. They highlight concrete institutional practices that promote dignity and inclusion, from rights-based approaches in public policy to innovative educational programs in gender studies. The discussion also addresses the challenges of engaging conservative spaces, the role of legal frameworks, and strategies to translate human rights principles into practical outcomes, aiming to ensure that no individual is left behind in both academic and societal contexts.	Kingdom of Belgium
2025.08.04 Venue Open 17:45 Starting time 18:00 Closing time 20:30	Dialogue on Life	Theme Weeks Studio At the Jellyfish Pavilion, under the theme of "Peace and Human Rights," we explore the sensibilities, creativity, and life-affirming power needed to live together beyond divisions. In the Japanese-language session, we engage with LGBTQ+ activists, a female neuroscientist, and others to examine issues such as gender, disability, and generational gaps from multiple perspectives. In the English-language session, we learn from Indigenous cultures including the Māori of New Zealand and the Baka people of Cameroon. Through the power embedded in festivals, performing arts, and traditional crafts, we reexamine the state of our society and corporate cultures today.	EXPO 2025 Thematic Project "Invigorating Lives" (Producer NAKAJIMA Sachiko)
2025.08.05 Venue Open 10:30 Starting time 11:00 Closing time 12:00	Peace and Human Rights: Dialog and Imagination	Theme Weeks Studio In today's society, which is more divided than ever, human-to-human dialog can bring an end to human conflicts. With speakers who have faced the world's division at the frontline and reflected on Japan's peace from global perspectives, we will discuss the importance of dialog and imagination.	DMG MORI CO., LTD.
2025.08.05 Venue Open 14:30 Starting time 15:00 Closing time 16:00	sign of life	Theme Weeks Studio The talk event with filmmaker KAWASE Naomi. Under the theme "Peace, Human Security, and Dignity," a dialogue will explore ways to overcome divisions and work towards a future of unity and shared prosperity. Filmmaker KAWASE Naomi will participate in a talk event alongside a special guest. "Promotion of women's participation," we invite a woman who is working towards a radiant future through her unique perspective. This talk event will delve into their "sign of Life".	Expo 2025 Thematic Projects "Embracing Lives" (Producer KAWASE Naomi)
2025.08.05 Venue Open 17:00 Starting time 17:30 Closing time 18:30	Gender equity and justice: accelerating the pace of change	UK Pavilion The UK has a rich history of advancing women's rights. In 1918, the Representation of the People Act granted voting rights to women over 30, with equal suffrage achieved in 1928. From the Equal Pay Act of 1970 to the Equality Act of 2010, trailblazing women have been at the forefront of building collective movements for progress and justice. But there remain stubborn challenges and barriers to women's full economic, legal and social empowerment. Linking speakers in the historic Great Room of the RSA in London and in the UK Pavilion at Expo 2025 Osaka, this event will hear from today's disruptors, influencers and innovators leading the charge for the protection and advancement of the rights of women and girls in the UK, and internationally - and for a future where everyone has equal opportunity to achieve their full potential.	United Kingdom of Great Britain and Northern Ireland

Date	Title	Venue / Description	Organizer
2025.08.05 Venue Open 17:30 Starting time 18:00 Closing time 19:00	sign of life	Women's Pavilion WA Space The talk event with filmmaker KAWASE Naomi. Under the theme of "Promotion of women's participation," we invite a woman who is working towards a radiant future through her unique perspective. This talk event will delve into their "sign of Life".	Expo 2025 Thematic Projects "Embracing Lives" (Producer KAWASE Naomi)
2025.08.06 Venue Open 10:00 Starting time 10:30 Closing time 19:00	The Children's Conference of the Future in Support of the United Nations FUTURE SUMMIT	EXPO Exhibition Centre The World Children's Future Conference: FUTURE SUMMIT Mirai General Assembly will be held, bringing together children from around the world to engage in thematic discussions grounded in the SDGs. On August 6, Hiroshima Peace Memorial Day, children from Japan and the United Nations International School (UNIS) will jointly present the Peace Communication Declaration. The event will also feature entertainment content and interactive exhibition booths. This is a child-centered project event where children take the lead in sending messages to adult society and the world, with the aim of realizing a society that places children at its heart.	peace communication foundation
2025.08.07 Venue Open 09:00 Starting time 09:30 Closing time 18:30		Nordic Circle We are delighted to announce NATO Day, a significant event taking place at the Nordic Pavilion as part of Peace, Human Security and Dignity Week. It will be the first joint conference co-hosted by NATO and the five Nordic countries - Denmark, Finland, Iceland, Norway and Sweden - since the latter two joined NATO. The event will bring together representatives from NATO Headquarters, national governments and diplomatic missions to explore pressing global issues, including international cooperation with Japan, cybersecurity, artificial intelligence and next-generation peace and security. Through a series of panel discussions and dialogues, NATO Day will explore how transatlantic partnerships and shared values can contribute to a more secure and peaceful future.	Nordic Pavilion
2025.08.07 Venue Open 11:30 Starting time 12:00 Closing time 18:00	"Let's think together as parents and children! Gender Workshop"	Women's Pavilion "WA" Space In order to provide an opportunity for teenagers, who will be responsible for the future, to think about and learn about gender equality, POLA INC. and Asahi Gakusei Shimbun Inc. have been producing the "Gender Lessons for Teenagers" booklet since 2022. This event will use the booklet published in 2025 to hold a workshop where parents and children can learn.	POLA Inc.

What do we need to do to preserve the earth for future generations with abundant and diverse life?

Scope of Theme

Climate change, decarbonisation, biodiversity, circular economy, renewable energy, hydrogen society, Nature Positive, deforestation, marine pollution, woodland regeneration, freshwater resources, etc.

Date	Title	Venue / Description	Organizer
2025.09.15		UK Pavilion Hear from innovators who are moving us to the active 'do more good' principle of regeneration, and seeding a flourishing future for people, places, and planet. As we face the challenges of climate change, inequality and environmental degradation, we know to simply sustain is not enough. We want to see a world where people and communities harness their potential to be sources of health and regeneration for all life on earth. Because people and planetary needs are intertwined, our problem solving should be too.	United Kingdom of Great Britain and Northern Ireland
2025.09.17	Living Labs for Climate Adaptation and Disaster Management International Conference	EXPO Salon Held under the Expo 2025 Osaka Kansai theme "Designing Future Society for Our Lives" and sub-theme "People's Living Lab", this conference explores in depth the role of Living Labs in climate adaptation. It goes beyond academic exchange to emphasize stakeholder-centered collaboration and experimental solutions. To this end, researchers, businesses, and citizens from Korea and Japan will work together to connect theoretical discussions with practical applications. A Living Lab is not a top-down answer delivered by experts or government, but a process in which citizens, enterprises, and local authorities jointly define problems and co-create solutions. Such processes enhance policy acceptance and realize democratic values in everyday life. By sharing diverse cases from Korea and Japan, the conference seeks to integrate academic insights with field experience and establish an international platform for designing new models of governance.	Republic of Korea
2025.09.17	Nordic Space Day	Nordic Pavilion The aim of the event is to increase cooperation and exchange between the Nordics and Japan within the space sector. By bringing together leading space agencies, researchers, industry experts, and innovative startups, the event will serve as a platform for knowledge sharing, technological collaboration, and the exploration of new business opportunities.	Nordic Pavilion
2025.09.17 - 09.28	E-Methane and Biogas Week	gaspavilion E-Methane and biomethane are expected to play a key role in decarbonizing gas usage, as their use does not increase atmospheric carbon dioxide (CO2) levels. During "The Future of Earth and Biodiversity" Week, the Expo site will feature city gas made entirely from e-methane and biomethane produced by projects across the country, highlighting its environmental value by ensuring no additional CO2 emissions. These efforts will be showcased at the Gas Pavilion and international conferences.	The Japan Gas Association Osaka Gas Co.,LTD.

Date	Title	Venue / Description	Organizer
2025.09.17 Venue Open 10:00 Starting time 10:30 Closing time 12:30	Algeria's Strategy on Renewable Energies and Hydrogen	Theme Weeks Studio Algeria presents its vision for energy transition and highlights the key pillars of the national hydrogen strategy, as well as the initiatives undertaken by key stakeholders such as SONATRACH and SONELGAZ in the fields of industrial development, integration into the national energy system, and positioning on the international stage. Furthermore, this event will provide a platform for dialogue on international cooperation and Algeria's integration into the global hydrogen economy, thereby reinforcing the country's role as a regional energy hub and a strategic partner in the field of renewable and sustainable energies.	People's Democratic Republic of Algeria
2025.09.17 Venue Open 13:15 Starting time 13:30 Closing time 14:30	Considering the Future of the Earth - Corporate Actions for Climate Change and Decarbonization	"TEAM EXPO Pavilion" Osaka ATC Green Eco Plaza is an exhibition space dedicated to learning about environmental issues and SDGs, and creating future-oriented business opportunities. Through group tours, seminars, and events, we share information about companies and organizations tackling environmental challenges with businesses, schools, and international groups. At the venue, companies present their initiatives to combat climate change and achieve decarbonization, creating new opportunities for solutions.	ASIA AND PACIFIC TRADE CENTER CO.,LTD.
2025.09.17 Venue Open 13:30 Starting time 14:00 Closing time 16:30	ICT Technologies to Preserve the Earth for Future Generations	Theme Weeks Studio We will hold a panel discussion with ICT experts to explore the potential of ICT (information and communications technology) as an essential tool for preserving the global environment and realising a better society for future generations.	Republic of Korea
2025.09.17 Venue Open 15:00 Starting time 15:15 Closing time 16:30	"Dialogue between science, technology and diverse cultures" Subtitle: "The path of empathy towards a sustainable future"	"TEAM EXPO Pavilion" The Earth's rich ecosystem is supported by a diversity of living organisms, but currently, environmental destruction and climate change caused by human activities have become serious problems. Therefore, the concepts of biodiversity and circular economy are considered important from the perspective of efficient resource use and reducing environmental impact. Considering this situation, this programme will hold discussions on how humanity can bring together the wisdom of science, technology, and culture to carve out a sustainable future.	Faraday Seminar Organizing Committee
2025.09.17 Venue Open 15:30 Starting time 16:00 Closing time 18:00	Indonesia Green Gold Projects Agroforestry Nyamplung Bioenergy and Decarbonization	Indonesia Pavilion The Nyamplung Agroforestry Programme is a Nyamplung tree planting programme, a forest plant that can produce bioenergy and biopharmaceuticals. Nyamplung plants can decarbonize to reduce carbon emissions and greenhouse gas emissions. Nyamplung plants can be one solution to climate change and the energy transition from fossil to non-fossil energy. Nyamplung trees can be planted on critical or non-productive land such as ex-mining reclamation land, peat land, and conservation land.	Republic of Indonesia
2025.09.18 Venue Open 09:30 Starting time 10:00 Closing time 12:30	FemTech Day: Innovation for Women's Health and Sustainable Futures	Theme Weeks Studio Leveraging women's perspectives and leadership, the program proposes new values and solutions for protecting the planet's future and biodiversity. It aligns with Expo 2025 "The Future of the Earth and Biodiversity" Theme Week by discussing concrete actions to leave a richer, more diverse planet through FemTech innovations.	State of Israel

2025.09.18 Venue Open 10:00 Starting Open 10:30 Closing time 13:15	Agenda2025 business exchange programme'Visionary Exchange'	EXPO Salon We are pleased to organise a speech and discussion event, as well as a lunch networking event, on the theme of the Agenda programme 'The Future of Earth and Biodiversity', entitled 'Visionary Exchange', as part of the Agenda2025 programme. This gathering aims to include business delegations, universities, scientists, government officials, Agenda2025 panelists, and relevant Japanese leaders from government, industry, and academia. Participants will engage in keynote addresses and networking sessions aligned with each Theme's focus. (Invitation only)	Japan Association for the 2025 World Exposition
2025.09.18 - 09.19 Venue Open 10:45 Starting time 11:00 Closing time 13:00	Algerian Energy Days	Algeria Pavilion During Energy Days, leading Algerian energy companies SONATRACH and SONELGAZ will present their visions and initiatives for a sustainable energy future. The sessions will highlight the role of energy in development, innovative approaches to climate challenges, and strategies for decarbonisation and green transition.	People's Democratic Republic of Algeria
2025.09.18 - 09.25 Venue Open 12:00 Starting time 12:00 Closing time 16:00	Qatar's Path to a Sustainable Future: The Multifaceted Scope of National Environmental Strategy	Qatar Pavilion This programme, presented by the Ministry of Environment and Climate Change of the State of Qatar, has been specially designed in the spirit of the Week on the Future of the Planet and Biodiversity. It introduces Qatar's vision of a sustainable future in harmony with nature, through a series of short films. The topics range from the conservation and restoration of biodiversity and natural habitats to urgent global issues such as climate change, and the establishment of robust, science-based systems for environmental management. Each film, lasting around three minutes, condenses the essence of its theme into an engaging format. Visitors are first invited to experience these films, before deepening their understanding through open questions and dialogue. Even within this concise format, the programme links the various fields together, aiming to foster awareness and a shared sense of responsibility for a sustainable future.	State of Qatar
2025.09.18 Venue Open 14:00 Starting time 14:30 Closing time 16:00	Talk Session: The Future of Earth and Exciting Automation Technologies	Theme Weeks Studio The key to realizing the future of the Earth that we hope for might be exciting automation technology that we can't even imagine. Let's explore "The Future of the Earth and Exciting Automation Technology" together, not only with various experts, but also with Azbil employees who are specialists in automation. We can also enjoy diverse visions of the future Earth as drawn by local children, and delve into the exciting world of automation through creative thinking.	Azbil Corporation
2025.09.18 Venue Open 15:30 Starting time 16:00 Closing time 18:00	Indonesia Special Economic Zones (SEZ) Business Forum	Indonesia Pavilion This business forum will introduce you to the renewable energy sources in Indonesia; biomethane, hydrogen, and geothermal. In this event, there will be discussions about the potential, national strategies and their development in Indonesia.	Republic of Indonesia
2025.09.19 Venue Open 09:30 Starting time 10:00 Closing time 13:30	Knowledge as the Key to Protection -Part I-	Italy Pavilion, also hosting the Holy See Japanese and Italian scientists will engage in a bilateral exchange of research experiences on five key environmental themes: biodiversity, sea, polar regions, climate change, and natural hazards. Organised by the Department of Earth System Sciences and Technologies for the Environment of Italy's National Research Council (CNR), the programme highlights how scientific knowledge—anchored in memory and data—is essential for understanding environmental changes and increasing resilience to global challenges.	Italian Republic

2025.09.19 Venue Open 16:30 Starting time 17:00 Closing time 19:00	Agenda2025 Organised Programme Tackling climate change	Theme Weeks Studio The programme, together with the General Sponsors, explores: 'In 2025, with worsening climate change, what agendas should we now consider?'	Japan Association for the 2025 World Exposition
2025.09.20 Venue Open 09:30 Starting time 10:00 Closing time 11:30	How innovations in aerospace manufacturing can contribute to sustainability and environmental preservation	Theme Weeks Studio Latvia has made significant strides in the aerospace sector, particularly through its collaboration with the European Space Agency (ESA). Since becoming an Associate Member State in 2029, Latvia has actively participated in various programmes, enhancing its technological capabilities and contribution to international space missions.	Republic of Latvia
2025.09.20 -09.23 Venue Open 10:00 Starting time 10:00 Closing time 19:00	Come Power the Future	UK Pavilion An interactive showcase of the UK's global leadership in clean energy innovation. From pioneering breakthroughs in fusion energy to world-class offshore wind infrastructure, this exhibit brings it all to life. Try your hand at laying wind farm cables in a gamified challenge, explore the next generation fusion device in Virtual Reality, and fire your own virtual pulse. Visitors will have the opportunity to experience a dynamic journey through the UK led technologies shaping a greener future.	United Kingdom of Great Britain and Northern Ireland
2025.09.20 Venue Open 14:00 Starting time 14:30 Closing time 15:50	The Untold Story of Water and Forests -Society and Innovation in the Era of Climate Change-	Theme Weeks Studio As a result of human economic activities since the Industrial Revolution, the destruction of the global environment has progressed, and problems such as global warming, intensification of disasters, and depletion of water resources are becoming more serious. In order to create a society in which nature and technology are in harmony, it is particularly necessary to take an integrated approach to solving decarbonization and water problems (shortages/disasters) together, and we aim to make people aware of the importance of these efforts through talk sessions, and to take them home and connect them to activities involving a wide variety of stakeholders.	IHI Corporation
2025.09.20 Venue Open 17:15 Starting time 17:30 Closing time 20:30	DOIC Global Symposium, Decarbonization and Renewable Energy: Transformation for a Sustainable Future	Theme Weeks Studio This programme provides a forum for international dialogue on global issues and focuses on themes such as the future of the planet, biodiversity, and decarbonization. More than just an event, the programme aims to solve social issues by deepening collaboration among the world's leading universities, research institutions, companies, experts, and start-ups to form a global innovation cluster.	Bunkashihon-soken Co., Ltd.
2025.09.21 Venue Open 09:30 Starting time 10:00 Closing time 12:00	Weaving Water and Air with Children: From Expo 2025 to the Future	Theme Weeks Studio Suntory and Daikin will conduct "A Spectacular Show of Water and Air" themed around the water and air connecting all life, every day during the period. This project is an environmental programme designed to explore the "biodiversity" nurtured by water and air, which may not be fully expressed through the show.	Suntory Holdings Limited · Daikin Industries, Ltd
2025.09.21 Venue Open 13:30 Starting time 14:00 Closing time 16:00	Our actions save our planet - Plastic and Resource Recycling Society	Theme Weeks Studio "Our actions save our planet - Plastic and Resource Recycling Society" will be held in cooperation with the United Nations Environment Programme (UNEP), a leader in global environmental conservation. Focusing on "plastic pollution," one of the global environmental problems, we will discuss solutions through resource recycling and nature restoration efforts. UNEP environmental message will be delivered to the world through the participation and dialogue by the youth generation who will lead the future, as well as entertainment elements such as a calligraphy performance, musical performance, and a waste art exhibition, expressing the spirit of global environmental conservation.	Global Environment Centre Foundation

2025.09.22 Venue Open 10:00 Starting time 10:30 Closing time 12:15	Thinking the future of textiles - exploring together the potential for circularity and innovation	Poland Pavilion Fashion adds colour and life to our daily experiences. But have you ever considered the impact a single garment can have on the global environment? This programme focuses on the environmental challenges facing the glamorous fashion industry and explores pathways to transform the textile sector into a more sustainable and environmentally friendly industry. Part 1: High-level discussion "Weaving a more sustainable future: innovations in textiles" Part 2: Panel discussion "The Environmental Cost of Textiles"	European Union
2025.09.22 - 09.25 Venue Open 10:00 Starting time 10:00 Closing time 21:00	Hydrogen Energy Park	EXPO Exhibition Centre In order to achieve carbon neutrality by 2050, the role of hydrogen is expected to become even bigger. This program aims to disseminate the safety, practicality, and future possibilities of hydrogen through exhibits and experiential events that demonstrate what hydrogen is, what are its advantages, and how it can be utilized.	Agency for Natural Resources and Energy, Energy Efficiency and Renewable Energy Department, Hydrogen and Ammonia Division
2025.09.22 Venue Open 13:15 Starting time 13:30 Closing time 15:00	Green cities and better ways of living thorough sustainability and aesthetics - the New European Bauhaus	EU Pavilion Cities are central to the green transition, serving as laboratories where environmental policies deliver tangible results for citizens. This session, framed by the New European Bauhaus (NEB), will explore what makes a city truly green: circular economy practices, nature-based solutions, sustainable architecture, and adaptation to climate challenges. Commissioner Roswall's portfolio areas—water management, resilience, and circular economy—will feature alongside inspiring examples from European Green Capitals and pioneering Japanese cities. The dialogue will address reducing single-use plastics, rethinking public spaces, and the interplay of local initiatives and national regulation. In its second part, the session will focus on the NEB as a movement linking sustainability, aesthetics, and inclusion, highlighting Europe-Japan collaboration in sustainable design and architecture.	European Union
2025.09.22 Venue Open 13:30 Starting time 14:00 Closing time 15:45	Nikkei Business Innovation Forum: "Realizing a Future Society Starting with Next-Generation Energy - Sending messages to the world from the transforming LABO at the Expo 2025 Osaka Kansai"	Theme Weeks Studio This forum will focus on the methanation demonstration being carried out at the Expo site during the theme week of Expo 2025 Osaka Kansai, "The Future of Earth and Biodiversity Week." This demonstration experiment is creating "e-methane" from food waste generated at the Expo site and carbon dioxide (CO ₂) collected on-site. We will introduce the progress and future prospects of the experiment, and discuss the future of society together with young people.	NIKKEI
2025.09.22 Venue Open 16:15 Starting time 16:30 Closing time 18:30	Global leadership for a circular, resilient and just economy	EU Pavilion A circular, resilient and just economy requires global cooperation beyond national policies, with circular diplomacy serving as a bridge between countries, communities and sectors through dialogue, knowledge exchange and joint action.	European Union

Date	Title	Venue / Description	Organizer
2025.09.23 - 09.28 Venue Open 10:00 Starting time 10:00 Closing time 20:00	Circular Economy Research Lab - Learn About the Circular Economy in a Fun Way Through Collaboration with the "Science Manga Survival" Series	EXPO Exhibition Centre *This program will be held in the South Hall of EXPO Messe. At the Circular Economy Research Lab, there will be interactive areas where participants can experience the circular economy in a fun way, a presentation space featuring guest speakers and hands-on activities, and educational events that allow everyone from children to adults to learn while having fun. Specifically, visitors can learn through hands-on experiences about what choices they can make in daily situations, such as what to buy and what to use, to facilitate a circular economy, as well as how to properly sort items after use and how used items circulate through the system. Additionally, you can learn about the latest research and initiatives aimed at achieving the "Osaka Blue Ocean Vision," which seeks to eliminate additional pollution caused by marine plastic waste by 2050.	Ministry of Economy, Trade and Industry Innovation and Environment Policy Bureau GX Policy Group Resource Efficiency and Circular Economy Division
2025.09.23 Venue Open 10:15 Starting time 10:30 Closing time 12:00	Plastic planet: Innovating solutions for cleaner tomorrow	EU Pavilion Each year, over 400 million tons of plastic are produced worldwide, much of it from packaging, consumer goods, and industrial use. With less than 10% recycled, most ends up incinerated, landfilled, or polluting the environment, particularly oceans. This seminar will highlight innovative ways to reduce plastic use and waste—focusing on prevention in line with the Global Plastics Agreement—while also exploring alternatives to incineration, consumer engagement, and emerging solutions such as bioremediation. Two panel discussions will frame the event: the first will examine single-use plastics, overpackaging, microplastics, and global production trends; the second will showcase cutting-edge plastic alternatives, featuring insights from EU and Japanese experts, businesses, NGOs, and academics. Join thought leaders shaping a cleaner, plastic-free future.	European Union
2025.09.23 Venue Open 12:45 Starting time 13:00 Closing time 14:00	Material resilience: Innovations for a secure and sustainable future	Nordic Pavilion Raw materials are essential for Europe's economy, and ensuring sustainable access to these materials is crucial for achieving the net zero objectives. However, Europe relies heavily on imports, primarily from third-country suppliers. It needs to reduce the supply chain risks associated with this strategic dependency in order to strengthen its economic resilience. This session, organised in collaboration with The Nordic Circular Hotspot, will focus on strategic and critical raw materials within the circular economy, covering topics such as urban mining, recycling of critical raw materials, mobility and infrastructure, product passports and sustainable mining. It aims to foster discussion between European leaders in sustainable mineral production and their Japanese counterparts. It will include presentations and a panel discussion with representatives from the automotive and electronics industries, focusing on the importance of critical raw materials in mobility and infrastructure.	European Union
2025.09.23 Venue Open 13:30 Starting time 14:00 Closing time 16:30	Carbon Solutions: The Path to a Sustainable Future	Theme Weeks Studio To raise awareness of the importance of carbon offsets and their role in combating climate change. We aim to showcase real examples of successful projects, equip visitors with practical skills to reduce their carbon footprint and inspire them to take personal and professional action in the field of sustainable development.	Republic of Kazakhstan
2025.09.23 Venue Open 14:45 Starting time 15:00 Closing time 16:00	Scaling Circularity: Empowering SMEs for a Sustainable Future	Belgian Pavilion Circular business models are vital for a healthy economy worldwide. They enhance resource efficiency, economic resilience and environmental sustainability. These models offer SMEs opportunities to innovate, reduce costs and improve competitiveness.	European Union

Date	Title	Venue / Description	Organizer
2025.09.23 Venue Open 17:30 Starting time 18:00 Closing time 20:30	OUR FOREST, A UNIVERSAL ENGINE THAT SAVES LIVES	Theme Weeks Studio What are we doing to preserve the Earth for future generations with abundant and diverse lives: Women's voices and actions for Biodiversity: Perspectives from the Global South toward a Sustainable Future As part of the theme week of Expo 2025 (Osaka, Japan) dedicated to the future of the Earth and biodiversity, Gabon is organizing a multi-stakeholder dialogue in the form of a roundtable on the crucial role of women in biodiversity conservation and enhancement. Women play a central role in the daily management of natural resources, the transmission of environmental knowledge, and the restoration of ecosystems, particularly in the Congo Basin. Yet, their traditional knowledge remains poorly recognized in public policies, and they are disproportionately affected by environmental changes, due to their heavy dependence on local resources. In light of these observations, Gabon is initiating a multi-actor dialogue to highlight women's contribution to biodiversity conservation. This event aims to showcase initiatives led by women and emphasize their participation in environmental decision-making processes, particularly in countries of the Global South. The dialogue will bring together institutional representatives and grassroots women leaders for a constructive exchange on policies and actions that promote gender integration in the sustainable management of natural resources.	Gabonese Republic
2025.09.23 Venue Open 17:45 Starting time 18:00 Closing time 19:30	It Starts With Us: How Everyday Choices Build Circular Economies	Netherlands Pavilion The EU and Japan have both developed ambitious circular economy policies. While the EU aligns its efforts with the European Green Deal and climate neutrality goals, Japan emphasises resource circulation and minimising environmental impact. Both approaches value citizen engagement, though Japan's is deeply rooted in cultural respect for resources and long-term use. Achieving circularity requires more than sustainable production: it demands changes in consumer behaviour. In sectors like textiles and electronics, fast fashion and planned obsolescence drive waste. Encouraging repair, reuse and responsible disposal is essential to closing the loop. This panel and interactive session will explore how consumers can drive circular practices in everyday sectors such as electronics, textiles, plastics, packaging, furniture and food. Understanding behavioural barriers and enablers (from motivation and habits to infrastructure and incentives) is key to designing effective policies and business models. The session will highlight how governments, companies, cities and civil society can empower individuals to participate in a more circular future.	European Union
2025.09.24 Venue Open 09:30 Starting time 10:00 Closing time 12:00	Natural Capital Investment: Advancing Green Economy through Biodiversity Conservation and Sustainable Use	Indonesia Pavilion Indonesia will showcase its rich biodiversity as a natural asset for sustainable growth and the global green economy. The session will highlight investment opportunities in nature-based solutions and biodiversity-based industries, while also promoting multi-stakeholder partnerships to scale up green financing, technology, and policy support.	Indonesia
2025.09.24 Venue Open 10:00 Starting time 10:30 Closing time 16:00	Strategy for a Carbon Neutral Society through Next-Generation Energy Technology	Theme Weeks Studio The 7th Basic Energy Plan and the 'GX2040 Vision' focus on next-generation energy centered on renewable energy, which is expected to drive economic growth in Japan. At the Expo, a global platform, we will disseminate information on policy support and corporate technological innovations that will pave the way for the future of next-generation energy.	NIKKEI

Date	Title	Venue / Description	Organizer
2025.09.24 Venue Open 10:15 Starting time 10:30 Closing time 12:00	Shifting gears: Adapting circular policies for a changing world	Poland Pavilion Not so long ago, enthusiasm for sustainable regulations, mainly in the form of obligations and disincentives, was on a seemingly unstoppable upward trajectory. However, recently, the acceptance of regulatory measures on the circular transition has waned considerably on both sides of the Atlantic and beyond. The resurgence of inflation, energy security problems, profitability concerns and other issues have made ambitious policies such as the US Inflation Reduction Act and the European Green Deal unwelcome. This particularly concerns demonstrations against the environmental requirements for EU farmers, rising energy costs due to carbon trading schemes and a slowdown in mobility electrification. Politicians around the world are under pressure from lobbyists and their constituents, and they are seeking to ease environmental constraints.	European Union
2025.09.24 Venue Open 12:45 Starting time 13:00 Closing time 14:30	Nature in the loop: Building a greener economy together	Poland Pavilion Experts from various fields will explore how these two frameworks can work together to drive sustainable innovation, reduce waste and promote resource efficiency. Through real-world examples and engaging dialogue, we'll discuss strategies for integrating biological resources into circular systems, the role of policy in supporting these transitions, and the potential for creating a regenerative economy.	European Union
2025.09.24 Venue Open 17:30 Starting time 17:45 Closing time 20:30	Patagonia and Chile's Unique Ecosystems: Private Initiatives Leading Biodiversity Conservation	Theme Weeks Studio This event addresses the critical challenge of nature preservation, emphasizing its vital role in planetary sustainability. It highlights Chile's unique biodiversity hotspot in the south-central region, recognized as one of 35 worldwide, illustrating the broader importance of conservation efforts. Key components: 1. Ongoing video presentations showcasing private conservation initiatives in Chile and globally 2. A seminar featuring: o Talks on the private sector's crucial role in biodiversity conservation o Sustainable tourism practices as a model for balancing economic development and environmental protection o A panel discussion on innovative environmental care solutions from the private sector The program highlights biodiversity's crucial role in maintaining global ecological balance, food security, and economic sustainability. By showcasing Chile's efforts, it aims to inspire international collaboration in safeguarding ecosystems worldwide, emphasizing biodiversity conservation as a shared responsibility for achieving sustainability goals and ensuring our planet's long-term health.	Republic of Chili
2025.09.25 Venue Open 09:30 Starting time 10:00 Closing time 12:00	Sustainable Landscapes: Integrated Forest, Water, and Biodiversity for Growth	Indonesia Pavilion This session will explore strategies to overcome sectoral fragmentation within the Government of Indonesia and strengthen regulatory frameworks for sustainable land use and environmental management of forests, water resources, and biodiversity. With support from international development partners, the session will also aim to build robust partnerships and platforms for adaptive Integrated Landscape Management (ILM) across pilot landscapes.	Republic of Indonesia

2025.09.25 Venue Open 11:30 Starting time 12:00 Closing time 15:05	Shaping a Brighter Future for Our Lives with GX	Theme Weeks Studio The Nikkei GX Conference is a project that brings together companies, experts, and government officials who are taking a proactive approach to green transformation (GX), which links greenhouse gas emission reductions to growth opportunities. Participants will learn about the ever-changing social conditions and trends, engage in discussions to promote GX, and disseminate the content widely. This time, we will hold a special hybrid seminar at the Expo with the theme "Shaping a Future Where Life Shines Through GX."	NIKKEI
2025.09.25 Venue Open 15:30 Starting time 16:00 Closing time 18:00	Living Side by Side Harmoniously with Nature	Indonesia Pavilion Learn how Indonesia's leading companies are putting sustainability and biodiversity conservation into practice. Through talks by experts and conservation leaders, you will gain valuable insights into the challenges and solutions in protecting biodiversity. The programme also provides an open platform where industry, academia, policymakers, and the public can come together for meaningful dialogue. In addition, visitors will be among the first to explore the Biodiversity Book, a special publication showcasing collaborative conservation initiatives.	Republic of Indonesia
2025.09.25 Venue Open 17:30 Starting time 18:00 Closing time 20:30	TUNISIA OVOP DAY: Roots & Wings	Theme Weeks Studio The thesis of this event is that OVOP: One Village, One Product « Isson-Ippin », a concept born in Japan in the 1980s, represents a mechanism for endogenous and decentralized development. OVOP initiatives may involve agricultural and non-agricultural products, tangible and intangible goods, traditional or innovative activities. The philosophy of OVOP is rooted in the valorization of biodiversity, local natural resources, know-how, traditions, identity, and the geo-cultural heritage of communities. OVOP Day will highlight both the Japanese and Tunisian experiences in implementing this concept. OVOP Day will particularly explore the potential of Tunisian olive oil in its dual dimension. On the one hand, it emphasizes the roots dimension: heritage, biodiversity, territorial and cultural identity. On the other hand, it highlights the wings dimension through PIST (Partnerships in Innovation, Science, and Technology) to identify and enhance its multiple virtues, whether culinary, cosmetic, or therapeutic.	Republic of Tunisia
2025.09.26 Venue Open 09:30 Starting time 10:00 Closing time 12:00	Joint Crediting Mechanism (JCM) Outreach for Indonesia	Indonesia Pavilion This session aims to connect Indonesian project developers with Japanese partners and regulatory authorities, with the goal of scaling up collaborative efforts to help both countries achieve their climate targets. It will also promote multi-stakeholder partnerships and knowledge exchange to advance an adaptive and effective Joint Crediting Mechanism (JCM) that contributes to Indonesia's broader economic development objectives.	Republic of Indonesia
2025.09.26 Venue Open 10:00 Starting time 10:30 Closing time 12:30	NIKKEI Blue Ocean Forum	Theme Weeks Studio The world's oceans are in a critical state. Coastal areas are littered with marine plastic waste, and fish stocks are declining due to global warming. Meanwhile, efforts to protect the oceans are increasing across Japan. At this forum, experts and corporate representatives will discuss the future of the oceans. Let's work together to preserve our blue oceans for future generations.	NIKKEI, NIKKEIBP
2025.09.26 Venue Open 13:30 Starting time 14:00 Closing time 16:00	NIKKEI Blue Ocean Forum	Theme Weeks Studio The world's oceans are in a critical state. Coastal areas are littered with marine plastic waste, and fish stocks are declining due to global warming. Meanwhile, efforts to protect the oceans are increasing across Japan. At this forum, experts and corporate representatives will discuss the future of the oceans. Let's work together to preserve our blue oceans for future generations.	NIKKEI, NIKKEIBP

2025.09.26 - 09.29 Starting time 10:00 Closing time 20:00	The Satoumi, Sea of Art -KAGAWA-	Gallery WEST · In "The Future of Earth and Biodiversity Week", issues related to the development of Kagawa Prefecture and its rich and beautiful nature, and efforts to solve such issues, will be presented through exhibits and hands-on experiences.	Kagawa prefecture
2025.09.26 Venue Open 15:30 Starting time 16:00 Closing time 18:00	Nature-based Solutions (NbS) to Address Climate Impact on Food Systems through Public-Private Collaboration to Achieve Food Self-sufficiency and Climate Resilience	Indonesia Pavilion This session, "Nature-based Solutions (NbS) to Address the Impact of Climate Change on Food Systems," will explore approaches to enhance food self-sufficiency and climate resilience through public-private collaboration in response to the challenges posed by climate change to agriculture and food systems. It aims to integrate smallholder farmers into sustainable value chains to promote responsible production and strengthen economic resilience. The session will also encourage cooperation among governments, financial institutions, and technology providers to advance the mainstreaming of Nature-based Solutions (NbS) and the development of resilient food systems.	Republic of Indonesia
2025.09.27 Venue Open 10:00 Starting time 10:30 Closing time 12:00	Agenda2025 Co-created Programme Big Data and Biodiversity - how should the latest information technologies including AI be used and developed by 2050 to achieve nature positive?	Theme Weeks Studio Discussion points for the future vision in 2050: To what extent should humankind be able to acquire and track the vast amounts of biological and environmental data? Who should be able to use the data and for what purpose? How much of this data should be incorporated into daily lives and corporate activities and evaluations? How should society be designed to handle invisible and unpredictable aspects of the ecosystem that cannot be fully captured by existing technologies? Biodiversity is in decline at an alarming rate. Although the biological information on the earth is vastly diverse, what we can access is only a handful. In this time when AI and other information technologies are transforming our society at an unprecedented speed, we ask young change-makers how we should utilize and manage information-related technologies towards 2050 for biodiversity conservation and our planet.	Shape New World Initiative
2025.09.27 Venue Open 10:30 Starting time 11:00 Closing time 13:00	Promoting Sustainable Practices Through Traditional Saudi Mud Building	Saudi Arabia Pavilion The talk aims to explore how traditional Saudi mud building techniques promote sustainable practices and cultural heritage. As an integral part of Saudi architecture, these techniques embody principles of sustainability that are relevant in today's context. By educating future generations through the Insititute, we can ensure the preservation of this invaluable tradition while highlighting its contemporary relevance in sustainable development.	Kingdom of Saudi Arabia

2025.09.27 Venue Open 13:30 Starting time 14:00 Closing time 16:00	Agenda2025 Co-created Programme NATURE HUMAN POSITIVE with AI	Theme Weeks Studio Hypothesis of the future in 2050: A future where nature and humans grow together with AI "Nature Positive" is a concept that aims to eliminate the decline in biodiversity and make it even richer. In fact, making nature richer is also making us, humans, richer. We have envisioned a future where Nature Positive and Human Positive meet through AI technology from a variety of perspectives, including business, the natural environment, and cultural creation. We propose actions to help make such a future a reality.	Shape New World Initiative
2025.09.27 Venue Open 17:00 Starting time 18:00 Closing time 19:30	Agenda2025 Co-created Programme Systems change to ensure sustainability of human society on Earth - what should our society look like in 2050 for humans and nature to be able to live in harmony?	Theme Weeks Studio Discussion points for the future in 2050: How should government, corporate, and individual money be distributed to conserve the natural environment? Among many political issues, whose voice should be included and how should policy decisions be made to achieve the coexistence of nature and human beings? How should development and conservation be balanced? What kind of education should be provided to children, youth, and adults regarding nature, and what kind of leaders should be developed? As we see more and more environmental challenges becoming prominent, the existence of human society on Earth is being questioned and it is clear that fundamental social changes need to be made. What is the form of society that will allow us to live on Earth for a long time to come? What kinds of updates should be made by 2050 in the areas of economy, politics, community development, and education, among others? We will ask honest opinions of young leaders actioning for our future planet.	Shape New World Initiative
2025.09.28 Venue Open 10:30 Starting time 11:30 Closing time 16:00	FUKUOKA ONE HEALTH SYMPOSIUM~To hand down a healthy planet to the future~	EXPO hall The "One Health" program will include talk show and panel discussion by celebrities on the subject of "One Health" to promote Fukuoka Prefecture's One Health initiatives both domestically and internationally.(One Health is a concept that treats"human health,""animal health,"and"environmental health"as one health and protects them in an integrated manner.In order to live in good health,the animals that live on the earth and the earth itself must be healthy.)	Fukuoka prefecture
2025.09.28 Venue Open 13:50 Starting time 14:20 Closing time 16:00	Life is amazing! Become an EARTH SAVER today!	Theme Weeks Studio This is a participatory workshop where you can learn about biodiversity in an enjoyable way. Deepen your understanding of the mysterious and fascinating ecology of living creatures in a programme that encourages you to think about the Earth from their perspective. If you feel inspired to do something to protect the Earth and ensure a future where you can continue living in harmony with these living creatures...then you too can be an EARTH SAVER today!	EXPO 2025 Thematic Project "Totality of Life" (Producer KAWAMORI Shoji)
2025.09.28 Venue Open 17:30 Starting time 18:00 Closing time 19:30	Revitalizing ecosystems: from the Aral Sea to the world	Theme Weeks Studio The event will showcase how the revival of the Aral Sea area and surrounding ecosystems exemplifies global and planetary environmental challenges and solutions, focusing on the interplay between scientific research, community engagement, and cultural innovation.	Republic of Uzbekistan

SDGs+Beyond Future Society for Life Week

2.October - 12.October

Can we achieve the SDGs? What do we do beyond the goals?

SDGs+Beyond Future Society for Life week

2.October – 12.October

Date	Theme Weeks studio			
	9:00 - 13:00	13:00 - 17:00	17:00 - 21:00

 **issue** Can we achieve the SDGs? What do we do beyond the goals?

 **Scope of Theme** SDGs, post-SDGs, life, future society, Society 5.0, etc.

Date	Title	Venue / Description	Organizer
2025.05.28 Venue Open 13:00 Starting time 13:00 Closing time 20:00	Regional Revitalization SDGs Festival	EXPO Exhibition Centre A regional revitalization collaboration event with the popular game "Momotaro Dentetsu"! Attractive booths will be set up at the venue where you can experience the unique characteristics of each region. What are the Regional Revitalization SDGs? Come discover the initiatives across Japan with your Momotetsu friends!	Headquarters of the Regional Revitalization
2025.05.29 -06.01 Venue Open 10:00 Starting time 10:00 Closing time 20:00			
2025.08.14 -08.18 Starting time 10:00 Closing time 19:30	Science: Connecting You to the Future	EXPO Exhibition Centre The purpose of this interactive exhibition is to disseminate the results of R&D to solve social issues by science technologies at Industry-academia-government co-creation centers. It makes opportunities for young people to think of these social issues as their own challenge.	Ministry of Education, Culture, Sports, Science and Technology(MEXT) Science and Technology Policy Bureau
2025.08.19 Starting time 10:00 Closing time 18:00			
2025.09.29 Venue Open 10:00 Starting time 10:30 Closing time 16:00	A Future Saved by Renewable Energy and Regenerative Medicine	Theme Weeks Studio To address climate change and health challenges, corporate leaders, researchers, former athletes, and young people will discuss technological innovations in solar power generation and the potential of regenerative medicine. Bringing together diverse perspectives from Japan and abroad, this event will serve as a forum for collectively envisioning a sustainable society and humanity's future. We invite you to join this dialogue shaping tomorrow.	NIKKEI
2025.09.30 Venue Open 12:30 Starting time 13:00 Closing time 16:00	GDS2025 The Future of Digital Society	Theme Weeks Studio Nikkei Inc. will host "The Future of the Digital Society" as part of GDS2025. From the venue of the Osaka-Kansai Expo, the event will share how technologies such as AI can help solve social issues.	NIKKEI

Date	Title	Venue / Description	Organizer
2025.10.01 Venue Open 10:30 Starting time 11:00 Closing time 14:50	Nikkei Social Innovation Forum: Circular Economy Symposium -A Circular Society That Changes the Future-	Theme Weeks Studio The circular economy is an economic system that aims to achieve a sustainable society by moving away from the traditional model of mass production, mass consumption, and mass disposal, and instead promoting the cyclical use of resources. This is particularly important for Japan, which has a high dependency on overseas resources. At the Expo, which is attracting global attention, we will share the efforts and future prospects of industry, government, and academia regarding the circular economy.	NIKKEI
2025.10.01 Venue Open 10:30 Starting time 11:00 Closing time 12:00	Designing Empowerment Frameworks for Communities of the Future	UAE Pavilion This programme is an interactive session focusing on societal transformation and the creation of sustainable and resilient communities. It highlights the United Arab Emirates (UAE)'s initiatives in social sector reform and its efforts under the "Year of the Community 2025", while fostering discussions on enhancing community autonomy and resilience from an international perspective.	United Arab Emirates
2025.10.02 Venue Open 09:30 Starting time 10:00 Closing time 12:30	City Climate Finance GAP Fund : Challenges and Opportunities Moving Forward	Theme Weeks Studio To highlights cities' critical role in combating climate change, as they consume 78% of global energy and produce over 60% of greenhouse gas emissions. With 68% of the global population projected to live in urban areas by 2050, transforming cities is essential. The Global Covenant of Mayors, with 11,500 local governments, emphasizes this, but stronger international collaboration is needed for timely decarbonization. In 2023, eight Malaysian cities, including Iskandar Malaysia, received the City Climate Finance GAP Fund for low-carbon initiatives and flood risk management, supported by the World Bank. At Expo 2025 Osaka, experts from the World Bank and other organizations will discuss these initiatives, exploring partnerships to help Malaysia achieve its net-zero goals through international collaboration and knowledge exchange.	Malaysia
2025.10.02 Venue Open 09:30 Starting time 10:00 Closing time 12:00	Empowering Sustainable Communities Through Astra's CSR: Showcasing Local Excellence for Global	Indonesia Pavilion Astra's Corporate Social Responsibility (CSR) initiatives are centered around four key pillars: health, education, environment, and entrepreneurship. The entrepreneurship pillar, in particular, plays a crucial role in supporting the achievement of Sustainable Development Goals (SDGs) number 1 (no poverty) and number 8 (decent work and economic growth). This aligns with the vision of Indonesia Emas 2045, which aims to build an independent and competitive society. One of Astra's flagship programs under the entrepreneurship pillar is the Desa Sejahtera Astra (DSA) program, which focuses on fostering economic growth and entrepreneurship in rural areas. Through this program, Astra helps villages enhance the quality of their local products, leading to improvements in living standards, education, and public health. A successful example from this program is Astra's "Legenda Kopi Astra" brand, showcasing premium coffee varieties from regions like Takengon, Cikajang, Agam, Bondowoso, and Cikoneng. These coffees have successfully entered international markets, including Korea, the UK, Malaysia, and others. In addition to coffee, Astra also supports creative industries by promoting local crafts such as "Tas Anyaman Mansiang" from West Sumatra. These bags not only preserve local cultural heritage but also introduce Indonesian craftsmanship to global markets. Through these efforts, Astra is helping to build sustainable communities and significantly uplift local economies.	Republic of Indonesia

Date	Title	Venue / Description	Organizer
2025.10.02 - 10.08		<p>Qatar Pavilion</p> <p>The University of Doha for Science and Technology (UDST) is proud to express its interest in participating in Expo 2025 Osaka under the Qatar Pavilion's theme, "Inc. is Empowering Life." As Qatar's leading institution for Technical and Vocational Education and Training (TVET) and STEM, UDST proposes two formats for participation:</p> <p>1. A Display: A visually and experientially rich presentation illustrating the transformation of Qatar's traditional dhow into a symbol of sustainability and technological advancement.</p> <p>2. A Workshop: A one-week interactive session showcasing UDST's expertise in incorporating TVET and STEM education into society to foster innovation, sustainability, and empowerment.</p>	State of Qatar
2025.10.02	20th/Year 2025 L'Oréal UNESCO For Women in Science Japan Fellowship Award & Talk Session- The World needs Science and Science Needs Women~	<p>Theme Weeks Studio</p> <p>The L'Oréal-UNESCO For Women in Science Awards, held jointly by the L'Oréal Group and UNESCO since 1998, will hold an awards ceremony for the Japan Fellowship Awards Program (first held in Japan in 2005, marking the 20th anniversary of Japan's hosting of the World Expo) and a Talk Session on the issue of the gender gap in science and the need to support women in STEM research.</p>	Nihon L'Oreal K.K.
2025.10.02	Development of Medical Education in Kyrgyzstan in the Context of the SDGs	<p>Theme Weeks Studio</p> <p>This programme will present key reforms in medical and nursing education and efforts to improve the quality of healthcare workforce training. It aims to show how Kyrgyzstan is modernising medical education to meet global health challenges and build a sustainable, resilient system.</p>	Kyrgyz Republic
2025.10.02	The Power of Intellectual Property builds tomorrow. -Delivering your passion, making our world a better place-	<p>EXPO Exhibition Centre</p> <p>Want to help people? Want to make our society a better place? Then why don't you use intellectual property as a tool to make more friends and bring your ideas to life? In this event, you will find a special exhibition of case studies, stage performances and workshops. You can also experience exciting future technologies. Please join and let this event be your springboard for solving social issues!</p>	Japan Patent Office, Kansai Bureau of Economy, Trade and Industry, National Center for Industrial Property Information and Training, Japan Patent Attorneys Association
2025.10.03 - 10.07	VOYAGE TO THE FUTURE—Japanese SMEs Tackle Social Issues for a Better Tomorrow—	<p>EXPO Exhibition Centre</p> <p>At the exhibition, small and medium-sized enterprises (SMEs) will be displayed as "challengers sailing into the unknown ocean while overcoming difficulties" as they take on the challenge of solving social issues by utilizing their strengths that make them attractive and move forward into the future. Through the exhibition, visitors will be able to experience the technologies and ideas of small and medium-sized enterprises (SMEs) and learn about their challenges and their value in realizing a future society for the world to see.</p>	The Small and Medium Enterprise Agency Organization for Small & Medium Enterprises and Regional Innovation, JAPAN, Independent Administrative Agency

Date	Title	Venue / Description	Organizer
2025.10.03	Investing in Sustainable District Landscapes : Scaling Indonesia's Restorative Economy	<p>Indonesia Pavilion</p> <p>Indonesia is embracing a restorative economy by combining sustainable investment models with nature-based solutions, local culture, and indigenous knowledge. Districts are pioneering this shift, creating investment opportunities in agroindustry hubs, economic corridors, and nature-positive industries.</p>	Republic of Indonesia
2025.10.03	Investing in Nature: Unlocking the Value of Indonesia's Sustainable Commodities & Nature Based Innovation	<p>Indonesia Pavilion</p> <p>This business forum connects stakeholders from Indonesia's sustainable commodity and forest-based product industries with global buyers, traders, and investors. Focusing on sustainable supply chains and environmentally friendly products, it offers a platform for collaboration and business transactions.</p>	Republic of Indonesia
2025.10.03	Sustainable mountain development	<p>Theme Weeks Studio</p> <p>As "Sustainable Mountain Development" is an important part of the United Nations Sustainable Development Goals, we consider it highly important to highlight and discuss this topic.</p>	Kyrgyz Republic
2025.10.04	International Forums on the Promotion of Intellectual Property Utilization for the SDGs	<p>Theme Weeks Studio</p> <p>The JPO (Japan Patent Office), in cooperation with WIPO (World Intellectual Property Organization), the IP Offices of various countries, and other related organizations, will hold events including international forums to promote the use of IP in solving social issues.</p>	Japan Patent Office Policy Planning and Coordination Department
2025.10.04	EXPO Future Learn & Play: beyond SDGs	<p>Playground of Lives: Jellyfish Pavilion</p> <p>EXPO Future Learning & Play: beyond SDGs is a forum to reflect on 4.6 billion years of Earth's evolution and to envision future societies beyond the framework of the SDGs. This talk will focus on the revision of Japan's national curriculum guidelines, highlighting the role of STEAM education and the power of "play" in shaping next-generation learning. Professor Kan Suzuki (University of Tokyo / Keio University) and Sachiko Nakajima, producer of the Jellyfish Pavilion, will discuss the future of education and society.</p>	EXPO 2025 Thematic Project "Invigorating Lives" (Producer NAKAJIMA Sachiko)
2025.10.05	Shaping the Future with JICA: The SDGs, Dynamic Realities of Developing Countries, and Our Path Forward	<p>Theme Weeks Studio</p> <p>The year 2025 marks the tenth anniversary of the United Nations' adoption of the Sustainable Development Goals (SDGs). Over the past decade, the circumstances facing developing countries have changed significantly. With less than six years remaining until the target year 2030 for achieving the SDGs, it is crucial to consider what we must focus on to ensure that we can work together toward a sustainable global society. We look forward to a meaningful and engaging discussion with the participants on these vital issues! This event is hosted by the JICA Ogata Sadako Research Institute for Peace and Development.</p>	Japan International Cooperation Agency

Date	Title	Venue / Description	Organizer
2025.10.05 Venue Open 14:00 Starting time 14:30 Closing time 16:30	World Cancer Eradication Summit in EXPO 2025	Theme Weeks Studio Cancer is now a common disease for the mankind that threatens the life. In this programme, we will work around the world to eradicate cancer and find a way to free mankind. Indeed, we will look at the cutting-edge medicine without conventional thoughts, and discuss "What should we do to realize a society in which people can live healthy and brightly until the end of lives?"	World Cancer Eradication Summit 2025 executive committee
2025.10.06 Venue Open 09:30 Starting time 10:00 Closing time 12:00	The Implementation of SDGs in Indonesia's Manufacturing Industry	Indonesia Pavilion A talk session highlighting Indonesia's sustainable manufacturing sector and investment opportunities. The session will showcase industrial estates, algae-based industries, and eco-friendly building materials, demonstrating Indonesia's commitment to the SDGs and circular economy. It also provides networking opportunities for international investors and companies interested in sustainable industrial development and strategic partnerships.	Republic of Indonesia
2025.10.06 Venue Open 10:15 Starting time 10:30 Closing time 16:00	The 7th Nikkei Well-being Symposium	Theme Weeks Studio "Well-being Initiative" is a corporate consortium committed to incorporating the concept of "well-being" and new indicators as social agendas for the upcoming era, aimed at designing a better society. Since its launch in March 2021, we have conducted numerous discussions and implemented specific practices to operationalize well-being in society. We will introduce our activities, and, inviting experts and corporate representatives from both domestically and overseas, we will share the latest trends in well-being that are intensifying with a view to the world after 2030.	NIKKEI
2025.10.06 Venue Open 17:00 Starting time 17:30 Closing time 18:30	SDGs and beyond: UK climate leadership on the global stage	UK Pavilion With the 2030 deadline for the Sustainable Development Goals fast approaching, the UK has made ambitious, mission-driven commitments to integrating climate change measures into national policies and planning, and to accelerating a just transition to a net-zero, nature-positive future.	United Kingdom of Great Britain and Northern Ireland
2025.10.06 Venue Open 17:30 Starting time 18:00 Closing time 20:00	Eternal goal for food security and human health - creating a new food system connecting Africa and Japan	Theme Weeks Studio One of the biggest challenges for the future global society are food security and human health. They are highly dependent on sustainable food production which is threatened by fluctuating climate conditions and increasing demand by the world population reaching 10 billion in a few decades. The current global food system is believed to have a market value of \$10 trillion, while it's "hidden costs" caused by health issues, environmental degradation, and food wastes count \$12 trillion. There's no reachable "goal" in food security and human health despite enormous efforts made toward the achievement of SDGs at local, national, and international scales, unless a substantial paradigm shift is brought to the world's food system. *Admission is on a first-come, first-served basis.	Republic of Guinea

Date	Title	Venue / Description	Organizer
2025.10.07 Venue Open 09:30 Starting time 10:00 Closing time 12:00	Developing Sustainability Strategies and SDG Oriented for Business	Indonesia Pavilion Organised by the Ministry of Industry of Indonesia, this programme aims to present Indonesia's sustainable industrial strategies to the international community while creating practical opportunities for business collaboration. With a focus on green manufacturing, eco-fashion, sustainable food and advanced technologies, it highlights initiatives aligned with the SDGs and the vision of a "Future Society for Our Lives." By bringing together international investors, the Japanese business community, and a wide range of global stakeholders, the programme seeks to establish Indonesia as a strategic industrial hub in Asia. Through presentations, panel discussions and business-matching sessions, it will showcase competitive and sustainable business opportunities.	Republic of Indonesia
2025.10.07 Venue Open 10:15 starting time 10:30 Closing time 16:00	The 7th Nikkei Well-being Symposium	Theme Weeks Studio "Well-being Initiative" is a corporate consortium committed to incorporating the concept of "well-being" and new indicators as social agendas for the upcoming era, aimed at designing a better society. Since its launch in March 2021, we have conducted numerous discussions and implemented specific practices to operationalize well-being in society. We will introduce our activities, and, inviting experts and corporate representatives from both domestically and overseas, we will share the latest trends in well-being that are intensifying with a view to the world after 2030.	NIKKEI
2025.10.07 Venue Open 18:00 Starting time 18:15 Closing time 20:00	What Changes the World? — Insights from Best Practices	Theme Weeks Studio The Best Practices program showcases innovative projects addressing global challenges. This event brings together awardees and a selection committee member of the program to explore how these initiatives can contribute to building a better future society. This event is helped by New Year's Postcard Donations from Japan Post for "Expo 2025 Osaka, Kansai, Japan (donation-added)".	Expo 2025 Osaka, Kansai, Japan Best Practices
2025.10.08 Venue Open 09:30 Starting time 10:00 Closing time 12:00	Central Java: The Future of Green Investment to Enhance Sustainable Growth and Circular Economy	Indonesia Pavilion The purpose of this business forum is to showcase Central Java as a prime destination for sustainable investment and trade, emphasizing its commitment to green economic development and environmental preservation. The forum aims to attract investors and trade partners by highlighting the region's strategic location, robust industrial infrastructure, and opportunities in renewable energy and eco-friendly industries. The ultimate goal is to foster long-term partnerships that align with the Sustainable Development Goals (SDGs) and promote sustainable economic growth in Central Java.	Republic of Indonesia

Date	Title	Venue / Description	Organizer
2025.10.08 Venue Open 13:30 Starting time 14:00 Closing time 16:00	Resonance and Forest - From the Breaking Tower(1970) to the Opening Sky(2025)	Theme Weeks Studio This program led by Producer Hiroaki Miyata under the thematic initiative "Resonating Lives." Together with guests and attendees, we will think about and envision the potential future society that "Better Co-Being" offers, focusing on the ideas of "connecting together and living together.	EXPO 2025 Thematic Project "Resonance of Lives" (Producer MIYATA Hiroaki)
2025.10.08 Venue Open 15:30 Starting time 16:00 Closing time 18:00	Collaboration to Setup Program of Sustainable Human Resource Development in Indonesia to Support Manpower Shortage in Japan	Indonesia Pavilion This programme is organised by IJBNet (Indonesia–Japan Business Network), in collaboration with Gakken and JOBAGUS, and supported by the Indonesian Ministry of Manpower (Kemnaker) and the Overseas Workers Protection Agency (KemP2MI). It responds to the Japanese government's national target of accepting 8.2 million specified skilled workers by March 2029, aiming to establish a sustainable workforce training system through bilateral cooperation between Indonesia and Japan. The initiative focuses on enhancing the quality and cost-efficiency of Japanese language education, establishing recruitment and training systems via regionally rooted vocational training institutions (LPKs), and creating an environment where Indonesian workers can live and work safely in Japan. Through these measures, the programme seeks not only to alleviate Japan's serious labour shortage but also to contribute to employment creation in Indonesia.	Republic of Indonesia
2025.10.08 Venue Open 17:40 Starting time 18:00 Closing time 20:00	Innovative waterfront development with autonomous vessels	Theme Weeks Studio We have been developing the concept of Umidoko Robot, which is a robot creates a floor itself that moves around like a drone on the water automatically. We will discuss innovation of urban waterfront with those who are working on the development and implementation of an autonomous vessels, including Umidoko Robot, to solve common global issues facing urban waterfront, such as environment, energy, transportation, logistics, and disaster prevention.	TAKENAKA CORPORATION
2025.10.09 Venue Open 09:30 Starting time 10:00 Closing time 12:00	Collaboration of Indonesia and Japan to Develop SAF Feedstock from Non-Standard Coconut and Pongamia Supported by a Closed Loop System (CLS) - Part I -	Indonesia Pavilion This programme presents initiatives aligned with the Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA), a global framework for reducing and offsetting CO ₂ emissions from international aviation. In Japan, the aim is to maintain total CO ₂ emissions from international flights at 2020 levels through to 2035, with a target SAF utilisation rate of 10%. Indonesia has set a target of 5%. Achieving these targets requires both active implementation and a stable supply of SAF feedstocks. This programme highlights the use of non-standard coconuts and pongamia as SAF feedstocks within a Closed Loop System (CLS), demonstrating how effective resource utilisation can be combined with sustainable fuel production.	Republic of Indonesia

Date	Title	Venue / Description	Organizer
2025.10.09 Venue Open 13:00 Starting time 13:30 Closing time 15:30	NIKKEI FT Communicable Diseases Conference at Expo Special Edition Discussing Future Infectious Communicable Diseases with the Next Generation	Theme Weeks Studio The 12th NIKKEI FT Communicable Diseases Conference will hold a special event at the Osaka-Kansai Expo site. We will welcome Professor Shigeru Omi, Chair of the NIKKEI FT Communicable Diseases Conference and former Chair of Subcommittee on Novel Coronavirus Disease Control during the recent pandemic, to exchange views with students who will shape the future of infectious disease control on the challenges ahead.	NIKKEI
2025.10.09 Venue Open 15:30 Starting time 16:00 Closing time 18:00	Collaboration of Indonesia and Japan to Develop SAF Feedstock from Non-Standard Coconut and Pongamia Supported by a Closed Loop System (CLS) - Part II -	Indonesia Pavilion This programme presents initiatives aligned with the Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA), a global framework for reducing and offsetting CO ₂ emissions from international aviation. In Japan, the aim is to maintain total CO ₂ emissions from international flights at 2020 levels through to 2035, with a target SAF utilisation rate of 10%. Indonesia has set a target of 5%. Achieving these targets requires both active implementation and a stable supply of SAF feedstocks. This programme highlights the use of non-standard coconuts and pongamia as SAF feedstocks within a Closed Loop System (CLS), demonstrating how effective resource utilisation can be combined with sustainable fuel production.	Republic of Indonesia
2025.10.09 Venue Open 17:30 Starting time 18:00 Closing time 20:00	Greater Intelligence, Enhanced Artistry, and Stronger Compassion: The Future of Urban Regeneration	Theme Weeks Studio The event intends to highlight people, technology, space, and other crucial factors for future social development. It aims to explore how advanced concepts and values can be incorporated into urban development through varied forms of urban renewal, infused with humanistic care and high-tech means, to foster the sustainable development of cities across social, economic, and environmental dimensions.	World Expo Museum
2025.10.10 Venue Open 09:30 Starting time 10:00 Closing time 12:00	Palm to Sustainability: Unlocking the Value of Biomass	Indonesia Pavilion This programme highlights Indonesia's unique advantage as one of the world's leading palm oil producers, focusing on the sustainable utilisation of palm oil by-products to support the global agenda for decarbonisation and renewable energy. By transforming palm kernel shells (PKS), previously considered agricultural residue, into high-value resources, the initiative aims to strengthen Indonesia's downstream biomass industry and attract foreign investment. The programme also seeks to foster business collaboration with energy stakeholders worldwide, particularly in Japan, while building a positive image of Indonesian palm oil as a key component of global sustainability solutions.	Republic of Indonesia

2025.10.11 Venue Open 10:00 Starting time 10:00 Closing time 21:00	A programme aiming to achieve global benefits to enrich lives for the next 100 years through TAKANAWA GATEWAY CITY development	"TEAM EXPO Pavilion" We'd introduce our project of TAKANAWA GATEWAY CITY development managed by following our theme of "an experimental site to enrich lives for the next 100 years," and we'll have a discussion on global benefits or the ways to make the future society of enriching the heart, according to the contents of the discussion we had in the CITY for TEAM EXPO as well as the thematic session.	East Japan Railway Company (TAKANAWA GATEWAY CITY)
2025.10.11 Venue Open 10:30 Starting time 11:00 Closing time 13:00	Agenda 2025 Co-created Programme Our Harmonious Future: Communities in 2050 and Beyond	Theme Weeks Studio [Hypothesis for the Future in 2050] A future where art drives behavioral transformation, and technology harmonizes individual and collective well-being. Toward a future where the self and the collective intertwine—Will a society emerge in which technologies such as artificial intelligence and virtual beings enable a balance between personal happiness and collective well-being? This program explores that question through the outcomes of various research and investigation initiatives. Furthermore, it examines the potential of art to facilitate behavioral change toward such a future, the conditions required for communities to thrive over centuries, and the possibilities of storytelling through art and entertainment as a means to envision and transition into this harmonious world.	Shape New World Initiative
2025.10.11 Venue Open 11:30 Starting time 12:00 Closing time 19:20	"Inochi Declaration" Festival	Festival Station At the Inochi Declaration Festival, we will share the Inochi Declaration with the world as the culmination of ongoing discussions that seek to usher in a new era celebrating the brilliance of every life. Alongside this announcement, the festival will feature a diverse array of programs—songs and presentations by participants of all ages, panel sessions led by experts, and dances those welcome visitors to join in.	Inochi Forum Council
2025.10.11 Venue Open 14:00 Starting time 14:30 Closing time 16:30	Agenda 2025 Co-created Programme Coexistence of Humans and AI: How Should We Engage with Emerging Intelligence?	Theme Weeks Studio [A Hypothesis on the Future of 2050] AI surpassing human capabilities in many domains will blur the boundaries between AI and human society. While AI introduces various risks, how can we ultimately create a world where human life shines even brighter? In this programme, we will explore how we, as humans, should engage with this new form of intelligence.	Shape New World Initiative
2025.10.11 Venue Open 17:00 Starting time 17:15 Closing time 18:45	Agenda 2025 Co-created Programme New Storytelling: Speculative Music That Shapes the Future	Theme Weeks Studio [Hypothesis of the Future in 2050] A future where, through the power of storytelling, people can proactively engage with and solve global challenges. Young people are the generation responsible for shaping the future of 2050, as well as the generation entitled to enjoy that era. However, from the important perspective of choosing their own future, many young people are not yet proactively engaging with social issues or global challenges. Therefore, we turn our attention to entertainment — a powerful cultural force that deeply influences young people and plays a major role in shaping our values. Together with popular artists and Vocaloid producers who have participated in a new speculative design initiative through music, we explore the potential of storytelling.	Shape New World Initiative

What do we do beyond the goals?'	Japan Association for the 2025 World Exposition
2025.10.12 Venue Open 18:45 Starting time 19:15 Closing time 20:45	Agenda2025 Organised Programme Expos in a New Era and the Significance of Theme Weeks	Theme Weeks Studio The programme, together with the General Sponsors, explores: 'What is the significance of Theme Weeks at Expos, and what legacy from the Osaka-Kansai Expo's Theme Weeks will lead to the future?'	Japan Association for the 2025 World Exposition

The importance of Theme Weeks in Expo history

Since the first Expo in London in 1851, World Expos have been held in numerous major cities around the world. The first crop of Expos, held over the period of roughly 100 years from the mid-19th century, developed as opportunities for expressing national prestige, centered on industry and trade. However, the world changed dramatically after two world wars, leading to the aim to build a prosperous future through science and technology. In connection with this trend, the corporate world came to play an important role in World Expos. However, the world again entered a new age as a rigid focus on development led to severe environmental damage. Against the backdrop of these changing times, the 1994 BIE General Meeting established providing opponents for solutions to humanity's global challenges as the aim of World Expos. Expo 2025 Osaka, Kansai, Japan is the fourth registered Expo to be held since the start of the 21st century. Each of these has aimed for solutions to global challenges. As part of these efforts, the Theme Weeks established for the first time in the most recent Dubai Expo attracted worldwide attention as symbols of the significance that World Expos have built up over their history.
