CO-CREATING CULTURES FOR THE FUTURE

For diverse cultures to resonate and co-create cultures for the future, what do we do ?

April 25, 2025~May 06, 2025

NO	Date of the programme	Official Title	Organiser's name	Programme Summary	Venue
5	30-Apr-25 ~ 3-May-25	Cultural Currents: Tokushima Then and Now	Tokushima Prefecture	Immerse yourself in 'Awa culture', [the rich cultural heritage of Tokushima, formerly known as Awa Province]-a tapestry of traditions nurtured by the region's unique environment. Experience time-honored arts like indigo dyeing, Awa Ningyo Joruri puppet theater, and the vibrant Awa Odori dance festival. Savor local culinary delights, and witness innovative community initiatives, including citizen-led activities inspired by the area's Zero Waste declaration. This event offers a chance not only to enjoy these cultural treasures but also to reflect on their preservation and future development.	EXPO Exhibition Center
6	30-Apr-25 ~ 2-May-25	ANIME/MANGA × JAPAN CULTURE (tentative)	Secretariat of Intellectual Property Strategy Headquarters, Cabinet Office	Utilizing Anime and Manga as gateways, this event will disseminate the various appeal of Japan (nature, tradition, culture, food, etc.) that are considered "Cool" in the eyes of the world. In addition, we are planning to conduct a questionnaire survey to foreign visitors at this event.	EXPO Exhibition Center
7	5-May-25	Inherit & develop historical culture (Agenda 2025 Organised Programme)	Japan Association for the 2025 World Exposition	How to inherit arts, culture, and language, and connect them with public opinion, innovation, science and technology, and economic public policy to preserve them for the future.	Theme Weeks Studio
8	5-May-25	Create new cultural base (Agenda 2025 Organised Programme)	Japan Association for the 2025 World Exposition	How diverse values can coexist across time and space to maximize the appeal and potential of new cultures.	Theme Weeks Studio
9	5-May-25	Multicultural resonance towards a better future (Agenda 2025 Organised Programme)	Japan Association for the 2025 World Exposition	What creative collaborations and actions can be considered for working together across different cultures to solve common challenges?	Theme Weeks Studio
10	6-May-25	Proposals for a Sustainable Future Society Realized Through 'Global Citizen' Participation and Collaboration as the Legacy of Expo 2005, with Themes of History and Culture, Water and Watersheds, and World Natural Heritage	Japan Institute of Eventology	The Japan Institute of Eventology—an institution exploring the significance, methods, and effectiveness of events that create a new era—is set to announce the results of three TEAM EXPO 2025 Co-Creation Challenges, in partnership with the Global Industrial and Social Progress Research Institute (GISPRI), the successor to Expo 2005 Aichi, Japan. Our proposal envisions a sustainable future society achieved through the active participation and collaboration of 'global citizens', with a focus on the themes of history and culture, water and watersheds, and world natural heritage. 未来のコミュニティとモビリティ
THE FUTURE OF COMMUNITY AND MOBILITY

What is a community where we can live as we are?

May 15, 2025~May 26, 2025

NO	Date of the programme	Official Title	Organiser's name	Programme Summary	Venue
11	15-May-25	The Baltics co-create solutions for smart cities	Republic of Lithuania	The event purpose is to draw attention to challenges and opportunities to co-create solutions for smart cities.	Theme Weeks Studio
12	16-May-25	Panel discussion on climate change	Islamic Republic of Pakistan	A panel discussion on Climate Change, Carbon Credits and its challenges, and role of Pakistan. The program will include discussion on the ongoing practices in the world related to the mitigation of the effects of climate change, and what the countries can learn from it. It will also include measures being taken in Pakistan.	Theme Weeks Studio
13	16-May-25	Leading Dialogues for Future Cities	Kingdom of Saudi Arabia	A visionary journey into the future as we unveil a cutting-edge model of urban living, centred on Smart Cities, Digital Garden Cities, and the role of space technology. This event will feature a panel discussion where experts and leading city developers will explore the innovative aspects of urban planning, sustainability, and smart technology that are shaping the cities of tomorrow. Through the Saudi pavilion, special attention will be given to how Saudi Arabia's is transforming smart cities by integrating advanced technology to create efficient, interconnected urban environments, and the use of digital garden cities seamlessly blend nature with technology to promote well-being and sustainability. Complementing this discussion, a detailed case study will highlight real-world examples of these innovative concepts in action, showcasing the practical application of smart technologies, digital monitoring, and green infrastructure in pioneering cities. The role of space technology in urban development, from satellite-based planning to potential off-Earth habitats, will also be examined, offering a glimpse into the future possibilities of urban expansion beyond our planet. Additionally, a series of keynote presentations will spotlight thought leaders and innovators pioneering these developments. These presentations will share groundbreaking ideas on equipping the next generation with the skills needed to thrive in Smart Cities, the importance of integrating nature and technology in Digital Garden Cities, and the potential for space exploration to influence urban planning. This comprehensive, multifaceted approach ensures a stimulating exploration of the future of urban living, from Earth to the stars.	Theme Weeks Studio

未来のコミュニティとモビリティ
THE FUTURE OF COMMUNITY AND MOBILITY

What is a community where we can live as we are?

May 15, 2025~May 26, 2025

NO	Date of the programme	Official Title	Organiser's name	Programme Summary	Venue
21	21-May-25	Panel discussion on the theme of future decarbonized regional development	Ministry of the Environment	The event includes an interactive exchange of opinions on future decarbonized regional development through panel discussions by the national government, local governments, companies, etc. on advanced initiatives being promoted in Decarbonization Leading Areas which aim to achieve net zero by FY2030.	Theme Weeks Studio
22	25-May-25	E-wallet application technology showcase by Touch n' Go/ Paynet/ Maybank	Malaysia	The Retail Digitalisation Initiative (ReDI) aims to encourage the use of cashless payments among small retailers in rural Malaysia. As part of the Twelfth Malaysia Plan (2021-2025), the goal is to have at least 15,000 merchants adopt cashless platforms by 2025. To bridge the digital gap between rural and urban areas, ReDI collaborates with various agencies and service providers to create advocacy programs and facilitate e-wallet adoption. The initiative empowers rural communities to integrate technology into their daily business activities while addressing Malaysia's diverse cultural needs. Key efforts include ReDI tours, advocacy events, public onboarding challenges, and e-wallet incentives, which have successfully raised awareness and adoption of cashless payments in rural areas.	Theme Weeks Studio
23	25-May-25	Reinventing Tourism: A Smart, Sustainable, and Inclusive Journey Towards ASEAN and Beyond	ASEAN Secretariat	The event, "Reimagining Tourism: Smart, Sustainable, and Inclusive Journeys in ASEAN and Beyond," envisions a future where tourism leverages data-driven management and technology to enhance experiences while promoting sustainability and inclusivity. The programme includes a keynote speech on these trends, a participatory drawing competition, and a panel discussion featuring ASEAN's young leaders and entrepreneurs. The panel will explore how technology can make travel smarter and safer, balance sustainability with economic growth, and provide real-world examples of inclusive tourism.	Theme Weeks Studio
24	26-May25 ~ 3-Jun-25	Beyond 5G ready showcase	Office for Promotion of New Generation Mobile Communications Systems, Mobile Communications Division, Radio Department, Telecommunications Bureau, Ministry of Internal Affairs and Communications	There will be a large-scale exhibition where visitors can experience a virtual city and life of the future made possible by Beyond 5G (6G), the next generation wireless communication technology after 5G. In addition, visitors can learn about cutting-edge technologies directly from researchers through research and development exhibition booths and workshops, deepening their understanding of information and communications.	EXPO Exhibition Center

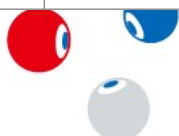

食と暮らしの未来

NECESSITIES OF LIFE:
FOOD, CLOTHING AND SHELTER

What do we need to do to realize a future
where everyone has access to food,
clothing and shelter?

June 5, 2025~June 16, 2025

NO	Date of the programme	Official Title	Organiser's name	Programme Summary	Venue
25	8-Jun-25 ~ 15-Jun-25	RELAY THE FOOD ~Food and Terroir for the Future~	Ministry of Agriculture, Forestry and Fisheries, National Tax Agency, Agency for Cultural Affairs, Government of Japan	During the "Future Week of Food and Life", we will publicize Japanese diversity of foods, traditional cultures, attractive local setting, and cutting-edge technologies, etc. at the EXPO Exhibition Center "WASSE".	EXPO Exhibition Center
26	12-Jun-25	Ensuring Sustainable Access to Essentials: How Advanced Wastewater Treatment Solutions Support Food, Clothing, and Shelter for a Growing Global Population	Republic of Austria	In a world rapidly approaching a population of 10 billion, the challenge of providing everyone with essential needs—food, clothing, and shelter—becomes increasingly complex. Ensuring access to these necessities requires innovative approaches to resource management and environmental protection. The VTA Group, an Austrian leader in advanced wastewater treatment technologies, plays a pivotal role in this global effort. Utilizing state-of-the-art nanotechnology, VTA purifies water and removes harmful pollutants, setting new standards in wastewater and environmental engineering.	Theme Weeks Studio
27	13-Jun-25	Innovations in sustainable food production	Hungary	This programme explores the concept of sustainable food production and examines how innovation in the food industry can improve our way of life. We discuss whether current trends are bringing us closer to achieving our sustainability goals, with a focus on Hungary's contributions and potential in this field.	Theme Weeks Studio
28	16-Jun-25	Nutrition & health solutions for 10 billion population (Agenda 2025 Organised Programme)	Japan Association for the 2025 World Exposition	How can we ensure that the 10B population can access and afford nutritious food produced within planetary boundaries?	Theme Weeks Studio

63	21-Sep-25	All Life Sustained by Water and Air (Working Title) (Agenda 2025 Participation Programme)	Suntory Holdings Limited・Daikin Industries, Ltd	Suntory and Daikin will conduct "A Spectacular Show of Water and Air" themed around the water and air connecting all life, every day during the period. This project is an environmental program designed to explore the "biodiversity" nurtured by water and air, which may not be fully expressed through the show.	Theme Weeks Studio

地球の未来と生物多様性
THE FUTURE OF EARTH AND BIODIVERSITY

What do we do to preserve the earth for future generations with abundant and diverse life?
September 17, 2025~September 28, 2025

NO	Date of the programme	Official Title	Organiser's name	Programme Summary	Venue
64	21-Sep-25	Our actions save our planet - Plastic and Resource Recycling Society (Agenda 2025 Participation Programme)	Global Environment Centre Foundation	"Our actions save our planet - Plastic and Resource Recycling Society" will be held in cooperation with the United Nations Environment Programme (UNEP), a leader in global environmental conservation. Focusing on "plastic pollution," one of the global environmental problems, we will discuss solutions through resource recycling and nature restoration efforts. UNEP environmental message will be delivered to the world through the participation and dialogue by the youth generation who will lead the future, as well as entertainment elements such as a calligraphy performance, musical performance, and a waste art exhibition, expressing the spirit of global environmental conservation.	Theme Weeks Studio
65	23-Sep-25	Carbon Solutions: The Path to a Sustainable Future	Republic of Kazakhstan	To raise awareness of the importance of carbon offsets and their role in combating climate change. We aim to showcase real examples of successful projects, equip visitors with practical skills to reduce their carbon footprint and inspire them to take personal and professional action in the field of sustainable development.	Theme Weeks Studio
66	24-Sep-25	THE CONTRIBUTION OF PRIVATE INITIATIVES TO THE CONSERVATION OF BIODIVERSITY	Republic of Chile	This event addresses the critical challenge of nature preservation, emphasizing its vital role in planetary sustainability. It highlights Chile's unique biodiversity hotspot in the south-central region, recognized as one of 35 worldwide, illustrating the broader importance of conservation efforts. Key components: 1. Ongoing video presentations showcasing private conservation initiatives in Chile and globally 2. A seminar featuring: • Talks on the private sector's crucial role in biodiversity conservation • Sustainable tourism practices as a model for balancing economic development and environmental protection • A panel discussion on innovative environmental care solutions from the private sector. The program highlights biodiversity's crucial role in maintaining global ecological balance, food security, and economic sustainability. By showcasing Chile's efforts, it aims to inspire international collaboration in safeguarding ecosystems worldwide, emphasizing biodiversity conservation as a shared responsibility for achieving sustainability goals and ensuring our planet's long-term health. Theme Weeks
CONNECT

Theme Weeks Connect Programme

“Theme Weeks Connect” is an initiative to solve global-scale issues related to the eight themes of Theme Weeks, held outside the Expo site. As an off-site related program of Theme Weeks, it is not limited to just the Osaka/Kansai area, but is open to participants from all over Japan.

NO	Theme	Date of the programme	Official Title	Organiser's name	Programme Summary	Venue
78	Learning and Playing Week	23-Apr-25 ~ 25-Apr-25	Education Expo Japan	RX Japan Ltd.	EDIX is one of the largest exhibitions in Japan for schools, educational institutions, corporate human resources and training departments, and others involved in education. The theme of the EDIX exhibition is "Weaving the Future of Education - A Starting Point for New Possibilities".	TOKYO BIG SIGHT South Hall
79	Learning and Playing Week	11-Jun-25 ~ 13-Jun-25				INTEX OSAKA
80	Health and Well-being Week	25-Jun-25~27-Jun-25	Japan Health	Japan Health Committee	As a sister exhibition to Arab Health, one of the world's largest international healthcare and medical equipment trade shows in Dubai, we will be holding the inaugural "Japan Health" in Osaka in June 2025. In Japan, sector-specific academic exhibitions are prevalent, contributing to the growth of the domestic market. However, they also face challenges related to excessive imports. Given this situation, and leveraging our global outreach at Informa Markets, we have decided that now is the right time to host "Japan Health" in Osaka, with the theme of "Designing a Future Society Where Life Shines," in anticipation of the 2025 World Expo.	INTEX OSAKA Hall 6
81	Health and Well-being Week	25-Jun-25~27-Jun-25	Int'l Wellness Tourism EXPO	RX Japan Ltd.	iWT brings together all for "wellness tourism" such as facilities, activities, healthy foods, and regions related to travel for a healthy mind and body. Our mission is promoting the development of the world's wellness tourism industry through this exhibition.	TOKYO BIG SIGHT East Hall 7
