May.23	～	May.23	Festival Station	RDD x NANBYO Day ～Step Forward Together～	<p>We are excited to announce that we will be hosting an event, "Rare Disease & NANBYO - A Step Toward the Future (RDD x NANBYO Day Collaboration) ", at the Osaka-Kansai Expo.</p> <p>The rare disease community is made up of patients, families, and various stakeholders. In 2016, the NGO Committee for Rare Diseases was established within the United Nations, followed by the adoption of a UN resolution on rare diseases by the United Nations General Assembly in December 2021. Moreover, in May 2024, Rare Disease International (RDI), the global rare disease patient community, was officially recognized as a WHO-affiliated organization.</p> <p>Rare Disease Day (RDD), the world's largest public awareness campaign for improving the quality of life (QOL) of patients and families through better diagnosis and treatment, has been celebrated in Japan since 2010 and will mark its 16th edition in 2025. NPO ASrid has played a key role as an initiator or secretariat in many of these global communities, contributing to grassroots activities in the international society.</p> <p>In Japan, ordinary people use the word of "NANBYO (in Japanese)", instead of rare disease. The direct meaning of NANBYO is "difficult disease" and the target of NANBYO is rare disease, intractable disease and long-term chronic disease. The Japanese government has enacted the policy and law based on this word.</p> <p>Why the Osaka-Kansai Expo Matters for Rare & Intractable Diseases</p> <p>World Expos have significant meaning in the rare disease field. At the Dubai Expo 2021-22, the United Nations NGO and EURORDIS (European Organization for Rare Diseases), which hosts the RDD Global Secretariat, organized the Global Rare Disease Day Event on February 28, 2022, which is the official date of RDD.</p> <p>Since the Osaka-Kansai Expo 2025 does not coincide with RDD's official date in February, we decided to host a Japan-led global event on May 23, 2025, coinciding with Japan's "NANBYO Day" (National NANBYO Awareness Day).</p>

This imaginative reimagining reflects Saudi Arabia's dedication to innovation, sustainability, and shaping the future.Combining exquisite puppet design, creative storytelling, and interactive elements, the performance offers a unique “edutainment” experience. Puppetry's ability to exaggerate expressions and bring creatures to life captivates audiences of all ages, fostering curiosity and a deeper appreciation for Saudi heritage and environmental initiatives.
